

AMERICA MAY BE INVOLVED IN CHINESE-BRITISH FIGHT

Open Warfare Believed Imminent; Witnesses Report 2000 Slain in Yangtze Battle

SHANGHAI, Sept. 13. (Exclusive)—That Great Britain and China rapidly are drifting into a war situation almost certainly involving the United States, is generally believed here following the Wanhsien Incident. The local press publishes eyewitness accounts of the Wanhsien battle between the British and Chinese, asserting that the Chinese casualties were more than 2000 killed or wounded as a result of the British attack on the city following the Chinese firing on the British gunboats, which resulted in the killing of seven Britons and the wounding of an eighth.

An eyewitness report states that the battle started when a British gunboat came alongside a Chinese cargo boat which was held by the Chinese military. Without warning the Chinese machine-gunned the British vessel, forcing the latter to withdraw downstream. The British then returned with rapid-fire guns and destroyed fifty houses, including Gen. Yang's headquarters.

Reports state that tonight the Chinese military in the upper Yangtze region are massing troops and artillery on the river banks, awaiting the British to release the cargo boats held by the Chinese military.

WOUNDED RESCUED.
When the British steamer bearing the dead and wounded dropped downriver, the ship was again heavily fired up by the southern troops at Hankow, forcing the boat to return upstream. Finally an American destroyer stationed in the Hankow district went to the rescue, removed the wounded and brought them to a Hankow hospital.

In addition to the fact that a British gunboat has been heavily shelled and also the Hankow district, it is generally believed here that the British are bound to intervene, otherwise the entire commerce of the Yangtze will be swept from the Yangtze valley.

PROTEST ENDS FIRING ON FOREIGN VESSELS.
HANKOW, Sept. 13. (P)—The firing upon foreign vessels has ceased as a result of the protest of the Chinese Consul to Gen. Tang Sen-Chi, commander of the Chinese army which ousted Marshal Wu Pei-Fu from this city a few days ago.

AMERICAN WARSHIP LOCKED IN PORT BY MINES.
PEKING, Sept. 13. (P)—The United States destroyer, Harte, is locked in at the port of Swatow because of mines which have been laid at the entrance of the harbor. At the United States Ambassador, Charles MacVane, called informally on Foreign Minister Shidehara today and inquired regarding Japan's attitude toward China in the latter country's troubled condition. It is understood that Baron Shidehara stated Japan does not contemplate any intervention except what is necessary for the protection of the lives and property of her nationals.

CONFERENCE SEEN AS MOVE FOR CO-OPERATION.
WASHINGTON, Sept. 13. (P)—It is assumed here that Ambassador MacVane, in his talk today with the Japanese Foreign Minister, merely went over informally the latest aspects of the problem of China so that the Washington and Tokyo governments may be in a better position to cooperate in their treatment of the situation.

LONDON CONSIDERS SITUATION AS IMPROVED.
LONDON, Sept. 13. (P)—The Chinese situation is regarded as more

BRITISH GRADUALLY RELAX CANTON PATROL.
HONGKONG, Sept. 14. (P)—Information has been received here that the British patrol of Canton Harbor is being relaxed gradually. The patrol was established the 4th inst., when British naval troops were landed on the west bank on an area under lease to a British concern, because of the Chinese resistance against British shipping.

FACILITATING MOVING FOLLOWING HANKOW FALL.
PEKING, Sept. 13. (P)—Facilities, resulting in civilian casualties, have followed the recent occupation of Hankow by the troops of the government of Canton, who forced Marshal Wu Pei-Fu to retreat from his capital. The rioting occurred in the native section of Hankow, and caused 150,000 Chinese to take refuge in the foreign concession districts.

MUTINY OF ALLIED CHINESE TROOPS QUELLED.
PEKING, Sept. 14. (P)—A mutiny of Allied soldiers at Kalgan today was suppressed by ambushing the mutineers at a railway station and shooting down several hundred of them.

The victorious Cantonese levied heavy contributions from chambers of commerce, already forced to donate by the Wu Pei-Fu faction in its futile defense.

The commanding general and two colonels were taken to Mukden as prisoners.

Responding to complaints by the people of wholesale looting and other acts of Chinese oppression, Gen. Chang Tso-Lin, ally of Marshal Wu Pei-Fu in the combination against the Kuomintang (nationalist) army, assertedly ordered disarmament and abandonment of the military unit concerned. Efforts to carry out the order precipitated the revolt.

Several hours the populace was terrorized.

This is the second instance of disaffection recently in the ranks of the allied or northern forces. A few weeks ago on the southern front, where the Canton army is the common foe of the allies, Marshal Wu and Gen. Chang, a division of troops deserted and went over to the enemy.

Navajos Receive Uniform Wages for Film Work.

FLAGSTAFF (Ariz.) Sept. 13. (Exclusive)—Navajo Indians are becoming wise in the ways of the film world. Their reservation has been invaded in the last couple of years by many parties from Hollywood. Much of the work lately has been done around Tuba City, where the Indians have been becoming experts and where they have been employed to the extent of demanding \$3 a day flat, for a full day from sunrise to sundown. They take care of themselves and need no provision for food or lodging, but demand coffee and plenty of tobacco. Once a week the employer must provide a feast, which simply means enough beef on which the aboriginal actors may gorge themselves.

The Hopi Indians are somewhat better traders, expecting gifts of trinkets and other evidences of esteem. Lacking these they are very likely to quit and go home to their corn fields.

RUBBER PLANTS SOUGHT.
THE HAGUE, Sept. 13. (Exclusive)—It is reported that American interests have requested permission from the Dutch East India government to establish native rubber factories in Sumatra.

THOROUGHFARE WILL ADVERTISE GERMANY'S ARMIES IN MIMIC WAR

Annual Fall Maneuvers Are Conducted as of Old But With Wooden Guns

BERLIN, Sept. 13. (Exclusive)—The German army is hotly engaged today on many fronts in Westphalia, Silesia, Swabia, Bavaria and Hesse shock troops of the Republican rifle, horse, foot and gun, are attacking the counter-attacking, bombarding and harrying, today and tomorrow, in a word, making things as unpleasant as possible for the enemy.

It is the war without bloodshed, however, the mimic battle being fought with blank cartridges against a fictitious enemy.

The plan of the exercise is to simulate the traditional autumn maneuvers of the soldiers of the fatherland and for German hearts that is thrilling.

The main engagements in this year's game will be staged in Westphalia, the historic battle fields in 1806 and maneuver grounds for the Kaiser's host in 1906. The general of operations will be Gen. von Moltke, which has been famous for a watering place since the middle ages. It was also once the scene of a physical education work.

From this center the electric system lighting the boulevard from Main street to the Oliver City limits.

The plan of the exercise is to simulate the traditional autumn maneuvers of the soldiers of the fatherland and for German hearts that is thrilling.

FRANCE URGES ARMS PARLEY

Plea Emphasizes Sincerity of Paris, Say Delegates

PARIS, Sept. 13. (P)—The French government today urged a general conference on disarmament should be convened at the earliest possible date.

Quickly following France's decision pronounced at Paris the very day Germany became a member of the League of Nations, whereby the French army would be reduced by 700,000 officers and men would be taken to establish a twelve-month instead of eighteen months' military service for French youth, M. Boncour's action today furnished evidence to many of the delegates that France sincerely desires to reach a disarmament agreement.

Many of the delegates, however, find it difficult to reconcile this general political attitude of France with the technical difficulties which have arisen in the military arm of the commission which is making technical studies of military, naval and air problems in preparation for a general conference on disarmament.

M. Paul Boncour's stand has created optimism that technical difficulties can be removed when the full preparatory commission meets and debates the thorny points more from a political standpoint.

A modified resolution was adopted by the League Assembly's disarmament commission today. It emphasizes the necessity of concluding as soon as possible a convention on the private manufacture of arms. It approves making this problem an integral part of the general disarmament conference, provided this conference can convene before next September.

But, instead that, should the general conference not convene before next September, the League Assembly's disarmament commission should continue its work on the private manufacture of arms.

With Defense Minister Gessler, Gen. von Seeckt, chief of the Reichswehr, and the premier of Bavaria, M. Brüning, today expressed the chief of the German state will be present during the final days of the conference.

Already in East Prussia, Saxony, Silesia, individual divisions have completed their fall training.

Red armies drawn from the First Army Corps, warred valiantly against the forces of the Reichswehr, carried on an equal bloodless conflict.

The climax of the theatrical hostilities will consist of a battle in which two whole German divisions will be engaged simultaneously for the first time since the war.

WATCH PUBLIC OPINION.
The conversations between M. Briand, the French Foreign Minister, and Dr. Stresemann, representing Germany, continue with almost daily sessions of the representatives of both French and German delegations to prevent the public from getting an exaggerated impression of the conference and its progress.

Both statesmen are moving cautiously, realizing the stupendous nature of their task.

Premier Briand has been approved M. Briand's speech in the Assembly welcoming Germany and, it is understood, is earnestly backing M. Briand in his efforts to develop a Franco-German rapprochement.

LATIN DELEGATES FAIL TO AGREE ON COUNCIL SEATS.
GENEVA, Sept. 13. (P)—A conference of the Latin-American delegations held this evening to designate candidates for the various divisions in the council adjourned without reaching a decision. Chile, Uruguay and Colombia are considered the most likely candidates with the possibility of a fourth being introduced, so as to allow the Assembly to choose.

TERM OF VETERAN EXTENDED.
George M. Stout Named to Place on Welfare Board Vacated by F. H. Nichols

SACRAMENTO, Sept. 13. (Exclusive)—George M. Stout, a member and secretary of the State Veterans Welfare Board, was given two years' longer tenure on the board today when Gov. Richardson appointed him to succeed Frank H. Nichols of Los Angeles, whose term expired. Stout's new term will run January 1, 1936, whereas his old term would have expired January 1, 1934.

The Governor named John P. Brennan of Berkeley to fill Stout's unexpired term.

In announcing the appointments Gov. Richardson said: "It is particularly fitting that George M. Stout, who has done so much efficient work as secretary and a member of the Veterans Welfare Board should be reappointed to that place."

The \$20,000,000 veterans' bond issue will probably carry it, it will be for the best interests of the State that Mr. Stout shall continue in the important position. John P. Brennan is a veteran and an active member of the American Legion. He will bring to the board ripe experience and integrity."

Premium Lists Prepared for Arizona Fair.

PHOENIX, Sept. 13. (Exclusive)—Premium lists for the twenty-second annual Arizona Fair, to take place here November 8 to 13, now are to be had by intended exhibitors. In general charge will be Secretary of the fair, J. E. Jennings, State dairy commissioner; swine, Luther Smith of the Phoenix Indian School; sheep and goats, R. E. Dagg of Williams; poultry, W. P. Fetterly, boy and girls club work, A. B. Ballentine; dairy displays, H. B. Kinnick; artistic art, Mrs. W. K. Goldsmith; domestic exhibits, Mrs. A. W. Fickinger; agriculture and horticultural exhibits, Oscar Barlett; manufacturing exhibit, F. O. Gishburg, president of the Industrial Congress.

O'DONNELL AWARDED DECISION BY PRESS.

ST. PAUL, Sept. 13. (P)—Johnny O'Donnell, St. Paul lightweight, won a newspaper men's decision over Ray Miller, Chicago, after ten rounds of fast mugging here tonight.

Carl Tremaine, Cleveland featherweight gave Arch Richell, Chicago, a beating in ten rounds.

CHARGE DISMISSED.
In an attempt to bring out the asserted immunity promise given by the government in return for Merton's testimony, Mr. Rand asked the following questions:

Question: After the Senate investigation did a representative of the government come to see you about this transfer?

Answer: Yes, Mr. Todd. He came to me in Germany and, after telling me his business, returned to see the books of my company.

Q: Did you give him these?

A: No.

Q: And then you were indicted?

A: Yes, in October, 1932.

Q: Do you know the indictment charging you and others with conspiracy to put over a fraudulent claim on the government was dismissed on

CLIMAX NEAR IN DIET SENTENCE

**New Hearing Set for Bread
and Water Prisoned**

**Nebraska Injunction Asked
to Save Bootlegger**

**Lawyer Says Life and Death
Issue at Stake**

TEKAMA (Neb.) Sept. 13. (AP)—Declaring an issue of life and death at stake, an application for a temporary order to restrain the State of Nebraska from keeping Roy Carson, a farmer, in jail on a bread-and-water diet for violating the prohibition law was brought in District Court here today. The application is set for hearing Wednesday.

The action was filed by R. C. Hunt-er, Omaha attorney, who was employed to defend Carson by J. H. Chitt, brother of County Judge Chitt, who imposed the diet sen-

County Attorney Herbert Rhoades said he will combat the action, denying there was any cause for action. The court has held constitutional the sentences of Carson and Thomas Nelson, who also is on a diet sentence. Today, another petition is successful. It was announced similar proceedings will be taken in the case of Nelson.

Both Carson and Nelson said they were feeling "fairly well" today. Sherburne said the diet is "not too rigid" diet, giving the men raisin bread, cinnamon and jelly bread rolls with all the water they want.

Both men said today they liked the diet sentence "conflicts with the universal rule that no person can be deprived of life without due process of law."

Both men said today they had no authority that life means more than

more animal existence" and "under the pretext of a deprivation of liberty persons cannot be deprived of violent means of defense, such as arms, leg or digestive organs."

ANOTHER PRISONER ON BREAD-AND-WATER DIET

WASHINGTON (Neb.) Sept. 13. (AP) Fred F. Dirks was sentenced to sixty days in jail, the first ten and alternate ten days to be served on bread and water, and fined \$100, by Judge William Brewster, when he pleaded guilty to violating the prohibition law.

The court also ordered that upon the expiration of his sentence Dirks be paid a \$200 bond to stipulate that he will not violate the liquor law again within a year.

OPERATORS ABANDON

OPERATORS ABANDON EXHAUSTED MINES

MEXICO CITY, Sept. 13. (P)—Although the newspapers are making considerable ado over the closing of some assertedly exhausted gold and silver mines of the Oro Mining Company in the State of Mexico, officials of the mines say the closing has no economic significance. The company announced about six months ago that certain mines had become exhausted and that, therefore the company served notice that it would cease operations. It is stated that they are now carrying out the terms of the announcement. Other operations of the company are continuing.

Old Arithmetic
Once Property
of Emancipator

SAN ANTONIO (Tex.) Sept. 13. (Ex-
clusive)—Bearing on its cover a half-
legible inscription to the effect that
A. Lincoln was once its owner, a
little book, now belonging to Bruce
Ellsworth, Jr., of San Antonio, has
been identified as the former property
of the famous President.

The book is an elementary arith-
metic, but would probably be un-
intelligible to the modern child, since
it treats of such things as "vulgar
fractions" and "perpetuities." The
leather cover is scarred, and the pages
are torn and dog-eared. On its fly-
leaves are scribbled names and dates,
written in faded brown ink, silent
reminders of the days when Abraham
Lincoln trudged weary miles through
the snow to school.

Long has he slept, but now twen-
tieth century science has called him
from his deep sleep by his pre-
Columbian fireplace. What is your
story? They have asked him. What
did you eat, live and work and eat
and dream? What was your idea of
God? Why did you lie so, with your
arms crossed—reverential fashion—
and your legs drawn up to your
chest? Where did you come from and
where did you go?

For the University of Chicago, not
content with exploring the site of
Armageddon, reconstructing the Tro-
jan War and searching for new King
Tut in the Valley of the Nile, has
now embarked on what may be a ten-
year survey of the Illinois mound-
building problem.

This State, according to Prof. Cole,
is the key State, anthropologically
speaking, in the picture of prehistoric
America which science is trying to
depict. What sort of people produced
the Indian tribes that the white man
found? Is this civilization linked with
the great mounds of Ohio and the
lower Mississippi, that came up from
the south, or was it something dis-
tinct? Illinois may answer these
questions.

The department has been working
all summer on a preliminary survey
and finds the field one of fascinating
interest. Linked, perhaps, with the
Ohio civilization, it has never been
explored. Much is known already of
these ancient people, for the various
collections of relics gathered in this
district by amateurs, have been ex-
amined and classified. Now it is pro-
posed to open the mounds thorough-
ly.

In the Hanover district, for in-
stance, there are 142 mounds visited
by Prof. Cole. They are untouched
while many of the mounds here have
been pitted and looted.

Among the articles found are ar-
rowheads, hammerheads, pottery,
copper beads, bear tooth necklaces,
human bones, pipes and copper orna-
ments. In the new and extensive
mound quarrying other rich treas-
ure may be found, such as gold in the
pearl mound of Ohio. No gold has
been found yet, but at any time the

SKELETON 500 YEARS OLD

Important Archeological Discovery Made on Banks
of Mississippi River

GALENA (Ill.) Sept. 13. (Exclusive)—Upon a grass-covered open hill-
top bordering the Mississippi River near Galena, the skeleton of a prehistoric
American lay uncovered today under gray skies and a cold wind after per-
haps 500 years of darkness. Gathered about this ancient man, buried in a
flexed position with arms and legs drawn up, and near the black remains
of his old fireplace, were the members of the University of Chicago anthro-
pological expedition into the wilds of Illinois, headed by Prof. Fay Cooper
Cole.

Miss Charlotte Gower, graduate
student worker, with knife and whisk-
broom, gently patted and carved the
dirt of the centuries from the lean
and yellow head. A black beetle
crawled from its home underneath.
The squirrels ran around under the
hickory nut trees and the black oaks
rustled as of old in the chill fall
breeze.

Long has he slept, but now twen-
tieth century science has called him
from his deep sleep by his pre-
Columbian fireplace. What is your
story? They have asked him. What
did you eat, live and work and eat
and dream? What was your idea of
God? Why did you lie so, with your
arms crossed—reverential fashion—
and your legs drawn up to your
chest? Where did you come from and
where did you go?

For the University of Chicago, not
content with exploring the site of
Armageddon, reconstructing the Tro-
jan War and searching for new King
Tut in the Valley of the Nile, has
now embarked on what may be a ten-
year survey of the Illinois mound-
building problem.

This State, according to Prof. Cole,
is the key State, anthropologically
speaking, in the picture of prehistoric
America which science is trying to
depict. What sort of people produced
the Indian tribes that the white man
found? Is this civilization linked with
the great mounds of Ohio and the
lower Mississippi, that came up from
the south, or was it something dis-
tinct? Illinois may answer these
questions.

The department has been working
all summer on a preliminary survey
and finds the field one of fascinating
interest. Linked, perhaps, with the
Ohio civilization, it has never been
explored. Much is known already of
these ancient people, for the various
collections of relics gathered in this
district by amateurs, have been ex-
amined and classified. Now it is pro-
posed to open the mounds thorough-
ly.

In the Hanover district, for in-
stance, there are 142 mounds visited
by Prof. Cole. They are untouched
while many of the mounds here have
been pitted and looted.

Among the articles found are ar-
rowheads, hammerheads, pottery,
copper beads, bear tooth necklaces,
human bones, pipes and copper orna-
ments. In the new and extensive
mound quarrying other rich treas-
ure may be found, such as gold in the
pearl mound of Ohio. No gold has
been found yet, but at any time the
diggers may open the tomb of an
early chief, surrounded by all the
articles he would need in heaven.

In Appreciation

The PLATT MUSIC CO. on Monday,
did the largest single days busi-
ness in its history—to my know-
ledge the largest ever done by any
Music Company in America in a
single day.

It is with deep appreciation that,
on behalf of my organization and
myself, I thank the Los Angeles
public for making this possible.

We are making a supreme effort to
present outstanding values in this
event, and it is a wonderful feeling
to know that one's efforts are ap-
preciated.

For myself, I am happy that it is
within my power to pass on the
great benefaction of Music to hun-
dreds of Southern California Homes.

Thank You, People of Los Angeles.

Benjamin Platt

RAINFALL IN VARIOUS
SECTIONS OF ARIZONA

PHOENIX, Sept. 13. (Exclusive)—
Spotted rainfall has fallen all over
Arizona during the past week, heav-
iest around Yuma and of slight con-
sequence on the Salt River watershed.

Three wachous were known on the
Southern Pacific main line west of
Yuma, near Wallton, and west of
Maricopa. A trainload of passengers
was marooned for a full day as the
latter point, held by an overflow of
the west channel of the Santa Cruz
River, a stream ordinarily under-
ground from Tucson westward to its
union with the Gila, south of
Phoenix. This city had only about an
inch precipitation from the storm,
which is believed not yet over. Much
benefit has been experienced on the
cattle ranges, which had been drying
badly.

QUIZ LOOMS IN DEATH
OF MEXICAN PRISONERS

BROWNSVILLE (Tex.) Sept. 13.
(Exclusive)—An investigation by two
governments of the ambush and
killing last week of the five Mexican
prisoners held in connection with the
fatal shooting of Ernest May and
Lee Shaw, Willacy county deputies,
loomed when Mexican Consul A. C.
Vasquez left for Brownsville for a
personal investigation.

WASHINGTON, Sept. 13. (P)—The
Board of Temperance, Prohibition
and Public Morals of the Methodist
Episcopal church announced today
that children in the Sunday School
of that church will study the "Al-
cohol problem and the reasons for
prohibition systematically this year."

"We intend to see that the young
people of our church know why pro-
hibition was found necessary in
dealing with the drink evil," Clarence
True Wilson, General Secretary
of the board, said today.

TWENTY CONVICTS
ESCAPE ROAD GANG

BARTOW (Fla.) Sept. 13. (P)—
Twenty convicts in one of the Polk
county road gangs overpowered
guards and escaped today.

Liquid "Dry"
Tonic Shampoo

She Trained a Natural Wave

WITHOUT WATER

HAIR that glistens with life and falls
gently away from the face in graceful
curving lines can be had by any woman
now. With just a few minutes' training
every day it will soon naturally fall into
the curves trained. MENTH-O-FOAM, that
liquid "dry" tonic shampoo, just seems to
give the hair a new life and a natural tend-
ency to wave. We have just completed
a small folder that will explain in detail
how easy it is to train the wave for your-
self. If you sign the coupon below we will
be glad to send one to you free.

MENTH-O-FOAM is without doubt the
quickest and easiest shampoo known to use.
No water is required either in its application
or in the rinsing. It is just applied and
rubbed into the hair and scalp vigorously
until the hair begins to approach the cleaned
point and then it foams. When the foam
comes pure white the hair is clean and it is
only necessary then to dry it with a towel.
Hundreds of letters have come in telling of
remarkable results obtained. One applica-
tion will show new lustrous lights in your
hair without the slightest trace of oil.

The first application
does not foam as a rule
as it is just cutting the
oil. Sprinkle off first
application with hands.

Apply Menth-O-Foam
again. This time it will
foam. Sprinkle off hair
and apply again rubbing
only and hair vigor-
ously. Continue applica-
tions until foam comes
of pure white.

After removing off the
last foam do not rinse.
Just rub dry with a
towel. If the hair is per-
fectly straight it is now
to lay a "finger" over
after a Menth-O-Foam
shampoo.

If the hair is at all
naturally wavy, it will
curl as you are drying.
Even if the hair is per-
fectly straight it is now
to lay a "finger" over
after a Menth-O-Foam
shampoo.

LIQUOR RUNNING QUIZ ADJOURNED

Canadian Inquiry Stops for Election

Scandal Means of Unseating Government

Railway Detective Tells of Terror Reign

ST. JOHN (N. B.) Sept. 13. (Exclusive)—After listening to sensational revelations concerning a gang of rum-runners which has terrorized a district along the Maine-New Brunswick border, the royal commission charged with the task of investigating the customs scandal has adjourned until after the general election.

The commission, headed by Sir Francis Lemieux, was appointed last spring after H. H. Stevens, Conservative member for Vancouver, had made charges of corruption against the customs department on the floor of the House of Commons. The scandal was the means of unseating the Liberal government, headed by W. L. Mackenzie King, and was directly responsible for the calling of a general election tomorrow.

REIGN OF TERROR
The evidence regarding the reign of terror instituted by rum-runners was given by W. J. Carr, a railway detective. Carr said he had been informed that a car containing liquor was included in a certain freight train. As the train neared the border he looked out the window to observe two automobiles loaded with gunmen, racing along beside the train. They signalled the engineer to stop at the border, backing up their signal with stream lights.

Carr said he outwitted the gunmen by obtaining an order on the fly to take the train into Canada, stopping at Woodstock, N. B., for customs inspection, instead of at Aroostook, Me., as had been the custom. The detective charged flatly from the stand that the rum-runners had so intimidated customs officials at this point that they refused to give him any assistance. He declared one customs official detailed to him plans the runners had laid for capturing the car and unloading it. After telling Carr of the plans the customs officer unloaded his revolver, threw it in a dresser drawer and washed his hands of the whole affair.

SMUGGLING
John MacDonald, customs inspector on the east coast of New Brunswick, said that smuggling could not be eliminated so long as the three-mile limit existed. He said the large boats remained outside the limit, their cargoes being unloaded on small boats which could proceed at will into any port but their own without declaring themselves or cargoes. MacDonald said considerable smuggling on a small scale, was done by ship stewards.

IRRIGATION LAND SOLD TO ARIZONA

Area Delinquent on Tax Assessments Taken Over by Commonwealth

ST. JOHNS (Ariz.) Sept. 13. (Exclusive)—The State of Arizona, by a bid of \$45 an acre, has acquired a tract of 6431 acres of land under the Lyman irrigation project, the total bid being \$229,485. The tract is an outlying part of 14,000 acres in which the State has loaned \$629,995 of school funds, and was the property of the Lyman Land Company, a Denver corporation, that failed in construction of a dam through which it was hoped to store and divert the waters of the Little Colorado River.

The State didn't want the land, but efforts made by the sheriff to obtain other purchasers resulted only in a few bids that ran from 25 cents to \$1 an acre. The loans, by the State Loan Board, had been made not to the corporation but to individuals resident both in Colorado and Arizona, and the Lyman Land Company was not a guarantor in any instance.

The lands under the project all have become delinquent under tax assessments that have had to be covered by the State to the county of Apache, making the situation all the more intricate. There is an agreement that the school funds have not been given proper protection, that the loans were made largely for political effect and that the security was far from ample. The dam itself is considered more of a liability than an asset, and there is slight likelihood that it will be taken over by the State.

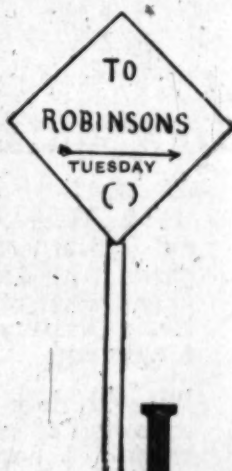

Obstruction to Colorado River Cleared Away

MATAGORDA (Tex.) Sept. 13. (Exclusive)—Opening of the Colorado River to its normal flow by clearing it of the great raft of logs which extended from its mouth up-stream for thirty miles is regarded as one of the most remarkable feats of its kind ever known in contracting circles. For more than thirty years the river was blocked by this almost solid mass of timber, and with each flood the raft was extended up the river farther and farther.

The obstruction caused disastrous overflows of an enormous area in time of flood. In 1922 an overflow occurred which caused losses aggregating more than \$3,000,000 to farmers and other interests. The people of the affected district finally realized that action must be taken to remove the raft.

The task was begun by dynamiting the raft at the mouth of the river and slowly progressed up-stream until the channel was opened a few days ago. For the first time in thirty years the river was opened and it is possible for small boats to traverse the entire lower course. It is expected that each flood will pick up and carry into the Gulf logs that still border the present open channel and that in due time the full width of the river will be cleared of all obstructions.

Beside obviating the dangers of overflow of a large area of rich land and the flooding of several towns, the removal of the raft will reclaim more than 100,000 acres of farm land that was under water by reason of the great log dam. This land will be planted in cotton, cane and other products, it is stated.

Women's Madeira Handkerchiefs \$1
ELABORATELY embroidered in exquisite designs. Madeira Linen Handkerchiefs would be worth purchasing at even higher prices, so very fine and dainty are they.

Scalloped edges and unusually effective designs in the corners show evidence of beautiful handwork. Tiny embroidered dots are combined with delicate flower patterns.

Tea Wagons Exceptional \$27.50

TEA Wagons offered in the last day of the 11-Years-on-7th-Street Sale at just \$27.50 are indeed exceptional for this price. One may choose from walnut or mahogany, and from Tudor or Colonial styles. Excellent features of these wagons are the patented drop handle, adjustable leaves, removable tray, a velvet-lined drawer for silver, and four rubber-tired wheels.

Beyond any doubt tea wagons of this sort are worth far more than the 11-Years-on-7th-Street pricing.

80 Tea Wagons of Mahogany or Walnut Are Sale Priced at \$27.50.

ENGLAND'S COAL STRIKE MAY END

Peace Believed in Sight From Miners' Action

General Walkout Failed to Aid Unions

Jazz Helps Keep Up Morale of Unemployed

BY FREDERIC J. HARKIN

WASHINGTON, Sept. 13. (Exclusive)—The end of the English coal strike may be at hand now that the miners by slightly more than a two-thirds vote have authorized their council to make a settlement with the operators. This may mean the capitulation of the strikers, or it may result merely in tedious negotiations and the prolonging of the deadlock, but it is generally regarded as a step toward peace. That the outlook is not altogether promising is indicated, however, by the fact that some 225,000 of the miners voted against the authorization. With such a large element of bitter-enders among the workers after all the privations that they and their dependents have endured, the officials of the union are likely to be slow in making concessions.

Unionists and employers as well in the United States have been at the coal strike after the general strike was called, presumptively, as a last desperate measure of British trade unions to force the government and the coal operators to meet the demands of the miners. Certainly it was called to aid the coal workers, and when it failed—and it did fail signally—it was assumed here that the miners would throw up their hands at once. Such would have been the result in this country, if it were conceivable that a general strike could be attempted here in support of any one group of unionists. Strikes collapse in the United States when the strikers and their leaders realize that public sentiment is against them to a marked degree. The general strike in England developed the most amazing adverse popular sentiment. All classes of the people rallied round in the most determined and most efficient co-operation to defeat the strike and the end was not long in doubt. Even the strikers themselves seemed to co-operate, for they indulged in no sabotage and no riotous demonstrations against strike breakers, and to glory in the manner in which their country met a perilous situation. It was industrial warfare, but the most peaceable warfare the world has ever known.

NO NATIONAL HYSTERIA
There was no exhibition of national hysteria, such as would have been inevitable in this country in a similar situation. No bitter hatreds were engendered, and neither side manifested a determination to rule by ruin. The strikers said, in effect, "This is how we feel about this situation, and here is our demonstration," to which the British public replied emphatically in substantially the same words. Whereupon the unionists said, "Well, if that's the way you feel about it, the general strike is off."

BUT the coal strike went on. All the trade unions in England could not win in a concerted action, but one group, in whose behalf the concerted action was taken, carried off. The only explanation of this extraordinary development in a great industrial conflict is that while British public sentiment was overwhelmingly against the general strike it was not correspondingly hostile to the cause of it. The miners must have popular sympathy to an appreciable degree.

EVIDENCE of this is seen in the public support that has been given the striking miners. Just as during the World War a city or an organization in the United States would "adopt" a village or town in France or Belgium and provide for the support of its inhabitants, so parishes and similar social entities in England have adopted mining districts. For instance, Blairston, in Wales, where there has been perhaps greater and longer distress than in any district in the coal mining regions, has been adopted by a parish in one of the poorest boroughs in London which sends from 200 to 300 pounds a week for distribution among the strikers and their families.

For the most part the striking miners are fed by funds that are raised by the distress committees of their federation, while their wives and children are supported by the poor law relief dispensed by public guardians.

The strikers, notably in Wales, keep up their spirit and maintain their morale largely by jazz music. They organize jazz bands, occasionally as many as thirty or forty in a district, and hold concerts and festivals at which the bands compete for prizes for the most striking costumes and the best music. Recently, however, there has been some rioting in Wales, and it has been made apparent that the spirit of the strikers has come either to the danger point or to the breaking point.

WHAT IT IS ALL ABOUT
In this country it has long been proverbial that a strike is always for more pay and shorter hours, but the English miners in the present instance are striking against longer hours and less pay. They have been making a desperate stand against relinquishing any part of the economic advantage they and their forebears have gained through long years of struggle.

For many years they waged a fruitless fight to better their conditions, but by 1908 their organization had grown sufficiently strong to enable them to persuade Parliament to enact a law which gave them an eight-hour day. It is true that there was a last-moment amendment to the act which provided that the day should be reckoned from the first cage down to the last cage up in the mine, which meant really an eight and one-half-hour day, but it was a great victory for the miners.

And having gained that much they went after more, with the result that presently there was a strike and a committee was named to consider the problem. This committee, of which Arthur Baird was chairman, recommended a seven-hour day, and even said that it might well be six. Whereupon, in 1919, the seven-hour day law was enacted, but with the one-winding-time proviso which made it in effect a seven and one-half-hour day.

Critics of the productivity of the average American worker under present-day conditions may be interested in knowing that the average annual output of the British miner prior to the strike was 217 tons, whereas in this country the miner produces on an average 555 tons.

National A.A.U. Squash Championship Play Starts at Hollywood Athletic Club

STARS COMPETE IN TOURNAMENT

Favor Local Players Again Over Visitors

Brilliant Array of Talent Represents East

Bill Holman Defeats Jones for Club Title

Gathering from all over the country, the best squash players from many of the big eastern and middle western athletic clubs will compete in the second annual A.A.U. squash championship, which opens at the Hollywood Athletic Club this morning at 11:30. Besides a brilliant array of talent from the outside, the Hollywood Athletic Club stars, many of whom finished high last year, will be favored to capture major honors.

Bill Holman, one of the Hollywood Athletic Club's original squash players, defeated Dan Jones for the club championship in three tight sets yesterday afternoon. Holman fought an uphill battle all the way, dropping the first set 16-21, and barely winning the second, 21-26, the new club champion cracked Jones' game in the deciding game to win, 21-9.

After winning the first set, Jones was within an ace of capturing the championship when he had Holman, 20-13. Holman pulled out of the hole only to fall in the rut again, when Jones brought the score to 25-21. In a brilliant exhibition, the new titleholder scored 6 points in a row to win the game. Today's drawings:

First Round: Holman vs. Jones, 21-9.

Second Round: Holman vs. Jones, 21-9.

Third Round: Holman vs. Jones, 21-9.

United States Senate, congratulated the Indiana Klansmen for the majorities rolled up for its candidates in the recent primaries, and the Wis- consin Klan for accomplishing the defeat of Senator Lenroot, the leading proponent of American adhesion to the World Court.

The Ku Klux Klan brought about
the conversion of Senator Trammell
from that State who voted for the
World Court proposal and now says
he will introduce a resolution for
withdrawal of the Senate's approval
of the protocol and who finished the
speaker by saying that the Klan
was a great force for the preservation
of the United States.

The Ku Klux Klan has the balance
of power; it's going to keep it and
see that Al Smith stays in New York
State, where he belongs," finished the
speaker by saying that the Klan
was a great force for the preservation
of the United States.

The Ku Klux Klan has the balance
of power; it's going to keep it and
see that Al Smith stays in New York
State, where he belongs," finished the
speaker by saying that the Klan
was a great force for the preservation
of the United States.

The Ku Klux Klan has the balance
of power; it's going to keep it and
see that Al Smith stays in New York
State, where he belongs," finished the

Autumn Days
Paris Is "At Home"
ings, opera and races await the re-
sidents from their summer holidays

when its smart people are there
on the glittering Rue de la Paix...
the mellow beauty of the Cham-
pne at fashionable Ciro's... all on an
when Paris has returned from its
mountain resorts. It will not be a
then... but Paris the suave; the
creative.
the same charming atmosphere from
you leave New York. You can do it,
entering "the longest gangplank in
... a French Liner. Every luxury of
ffered... the cuisine is famous...
excellent... the accommodations
able and in good taste.
dancing, music, games and parties...
Paris or France making its way to
England; then Havre. The One-Clas
the De Grasse, Rochambeau, La
ffren, go direct to Havre, the port
transferring to tenders... down the
waiting train... Paris in three hours.

THOUSANDS FILL CITY'S SCHOOLS

Year's Work Confronts Large Student Body

Long Beach Opens Door of New High School

Other Cities Report Large Attendance Increase

LONG BEACH, Sept. 13.—When the school bell rang in Long Beach for the opening of the 1926-27 term of school, approximately 20,000 pupils answered the call and took their places in their respective schools. Figures of attendance on the opening day are based on registrations made late last week by school authorities. Today marked the opening of the new \$500,000 Woodrow Wilson High School, 11000 avenue and Tenth Street. A total of 800 pupils were registered at this school, the seat of learning when the doors opened today for the first time. It was confidently believed by school officials that the registration at the Woodrow Wilson school would reach 1200 before the end of the first week of school.

Registration figures at Polytechnic High School placed the attendance there today at approximately 2500 pupils.

The Long Beach school system began to function this morning with a total of thirty-two schools, primary, junior high and high schools in operation and manned by a staff of more than 970 teachers.

For weeks past the traffic division of the Long Beach department has been busy engaged in remarking school crossings and working out plans for the better protection of school children who are obliged to cross at busy intersections. The school traffic squad numbering fourteen were assigned to their posts at the more dangerous intersections near schools this morning.

During the school vacation period were assigned to other duties and have been recalled to school work under direction of Capt. Claude Robinson.

INCREASED ENROLLMENT IN CROWN CITY SCHOOLS

PASADENA, Sept. 13.—Pasadena's public schools opened today with an enrollment of 14,321, which is an increase of approximately 1000 over the number enrolled on the opening day of last year's term. The John Muir Technical High School, the city's second senior high school, opened for the first time today.

FOUR NEW BUILDINGS OPENED AT GLENDALE

GLENDALE, Sept. 13.—The enrollment on the opening day of the Glendale elementary schools today showed a total of 5837 pupils, as compared with 5151 students last year, according to figures compiled by Supt. Richardson D. White.

The addition of four new school buildings and the enlargement of several others has permitted the Glendale schools to open with sufficient room for all the pupils since 1919, Supt. White declared. The four new schools have a capacity of 713 pupils, which will relieve the overcrowding that has been so evident in the past.

Many of the schools that were overtaxed this year may secure relief by transferring some of their students to other buildings, and with pupils will be given full-time instruction.

ENROLLMENT BREAKS ALHAMBRA RECORD

ALHAMBRA, Sept. 13.—A record growth in number of students was shown in enrollment at high, elementary and kindergarten schools on the opening of schools here today. The figures revealed a big gain over the enrollment of last September. The high school enrollment today was 1894 as compared with 1487 on the opening day last year. In the elementary schools the enrollment was 3126 as compared with 2954 in 1925. A substantial gain was shown in the kindergartens. The gain in the number of students registered at the high school was the greatest in the history of the institution.

Free Mexican of Charge of Filibustering

MEXICALI (B. C. Mex.) Sept. 13.—Julius Ziegler Urburu, member of a prominent Mexican law firm in Los Angeles, who was arrested here by Mexican rurales on August 29, and held under suspicion of being connected with the Betrande filibustering expedition, was released today at 3 o'clock when territorial authorities declared they did not have sufficient evidence to file charges against him. Urburu was taken from a Southern Pacific train as he passed through Mexicali. He denied any connection with the Betrande plot, and Mexican authorities refused to release him until a complete investigation of his activities in recent months had been completed.

TO START PACK OF LIGHT WALNUT CROP

ANAHEIM, Sept. 13.—Walnuts have commenced a gradual drop throughout the Anaheim district, and plans are now being laid for opening the packing plant of the Anaheim Walnut Growers' Association within a period of about ten days. Walter Bess, secretary-manager of the association, announced today.

Reports from growers estimate this year's crop as not more than 30 per cent of last year's phenomenal yield, and the picking and packing season will undoubtedly be very brief. Mr. Bess said. Official estimates of the crop are expected to be made the latter part of this month, and the central association is expected to set the price about October 6, he said.

AUTOMOBILE DEMOLISHED

VENTURA, Sept. 13.—A large sedan owned by an Associated Oil worker at Lloyd well No. 31 set 300 feet into a pump-hole demolishing the car. The machine had been run into the well by the "rakes" locked. The first thing those standing near knew was that it had gone over the cliff. It took a garage tow car and four other machines today to raise the wreck.

CARE MAKES GRAND CHAMPION

Boys Justly Proud of Accomplishment

"Blackie" and His Retinue

Once and ugly duckling, now adjudged best Holstein in California due to efforts of residents of the Junior Republic at China.

MORTICIANS MEETING IN CROWN CITY

State Association Session Opens With 400 Delegates in Attendance

PASADENA, Sept. 13.—The twenty-second annual convention of the California Funeral Directors' Association opened here tonight when nearly 400 delegates attended an informal reception and dinner at the Hotel Maryland, scene of the coming week's meetings. Another 100 delegates are expected to arrive tomorrow.

The opening business sessions will be held tomorrow morning at the Hotel Maryland when Franklin B. Cole, chairman of the Board of City Directors of Pasadena, is scheduled to deliver an address of welcome, to which J. B. Draper of Ontario will respond.

Dan W. Gray of San Jose, president of the State organization, will preside at the opening session. He is chairman of the City Council of San Jose, and will address the convention at noon. C. F. Lamb of Pasadena is chairman of the local committee, and is a vice-president of the State body.

The convention is the second gathering of the funeral directors held here in the last three years, Pasadena having been the site of their 1924 convocation. The convention will close Friday night following the annual election of officers.

ALHAMBRA SUIT FOR DAMAGES WITHDRAWN

ALHAMBRA, Sept. 13. (Exclusive) Suit for \$100,000 damages, filed against City Commissioner Carroll by Edward Donnelly and Harry J. Hilliges was dismissed today in Department Twenty of the Superior Court by Judge Carroll when the plaintiff attorneys, F. F. Gualano, stated that his clients wished to withdraw the action. The suit was filed against Carroll November 5, 1922. Donnelly and Hilliges based their claims on remarks which Carroll was alleged to have made in a City Commission meeting October 27, 1924, reflecting on the character of the public hall, "Happyland," which the plaintiffs conducted on Valley Boulevard, and the permit of which was revoked. City Attorney Gould represented Carroll.

BRITISH COAL STRIKE SETTLEMENT BALKED

LONDON, Sept. 13. (AP)—Continuation of the coal-strike deadlock was indicated when it was announced unofficially that the Mining Association this afternoon would report to the government that the Colliery Owners' Association throughout the country has refused to give the Mining Association power to negotiate a settlement with the men on a national basis.

ASK ANNEKXATION

ANAHEIM, Sept. 13.—Forty-three property owners living outside the city limits of Anaheim have presented a petition to the city asking annexation.

The presentation of this petition culminates months of investigation by the Chamber of Commerce City Extension Committee, composed of Roy Wethered, Fred A. Backe, Claude C. Sidnam, Frank Tausch, C. R. Nelson and George W. Reid.

SHIP GRAPE CROP

DAKERSFIELD, Sept. 13.—The peak of Kern county's grape shipments and those of California will be reached some time this week, White C. Barber, local horticultural commissioner, predicted today. Kern county's grape crop, according to his estimate, will approximate 4500 carloads, he said. The main crop in the county is reported to be practically all harvested and in the trays.

PREPARE FAIR EXHIBIT

LA VERNE, Sept. 13.—A large relief map showing the city of La Verne and surrounding region and a model of the new La Verne college administration building will be part of the Los Angeles county fair exhibit, to be entered by the local Chamber of Commerce. The display will also feature all community products.

OIL COMPANIES MERGE

ANAHEIM, Sept. 13.—Announcement was made today by Dave Jesseman, president of the Oro Co.-operating oil company, distributing oil, that his company has been merged with the California Eastern Oil Company which was formed recently by the merger of the Redondo Julian Petroleum Oil Corporation and the Marine Oil Corporation.

WEDNESDAY FIRST DAY OF EXHIBIT

Great Ventura County Fair Prepares to Welcome Throng of Visitors

VENTURA, Sept. 13.—An immense throng of motorists from Los Angeles and vicinity is anticipated for the opening-day events of the Ventura County Fair Wednesday which will usher in five days of festivities marked by the most elaborate entertainment program ever to feature a county exposition in California.

A president of the fair association, A. Camarillo, a member of one of California's oldest families, will preside at the welcoming ceremonies and introduce the speaker of the day, who will greet the crowds in the park before the woman's pavilion.

The elaborate entertainment program will include a series of daily rodeo events, supervised by Sheriff Bob Clark, races of the National Whippet Association, and a series of horse and carriage races.

The agricultural and live-stock exhibitions, the auto and industrial exhibits, and the selection of Long Beach as the site of the proposed institution, the backers of which are being withheld until negotiations for a 300-acre site are completed.

It is stated by the visitors, however, that a tract of eighty acres has already been secured and that the total acreage will reach 300 to accommodate the various departments.

Abundance of clinical material in Southern California, and one reason for the selection of Long Beach as the site of the proposed institution, the backers of which are being withheld until negotiations for a 300-acre site are completed.

It is stated by the visitors, however, that a tract of eighty acres has already been secured and that the total acreage will reach 300 to accommodate the various departments.

PLAN TO IMPROVE FORESTS

First Trail in Prevention of Fire Program Soon to be Started

PASADENA, Sept. 13.—The first trail in the new fire-prevention program of the Angeles National Forest, which calls for the expenditure of \$85,000, will be started today, according to a statement issued by George H. Cecil of the Angeles National Forest, who is in Pasadena today.

Half of the \$85,000 comes from the Angeles Forest's share of the \$100,000 appropriation for the improvement of national forests in Southern California, and an equal amount is being advanced by the federal government, Supt. Cecil said.

"The improvement work of this trail and which will be the largest ever accomplished at a single period in the history of the Angeles Forest," he declared, "and if the \$100,000 for the improvement of the forest is not completed, the fire danger in the government area will be reduced to a minimum in five years."

Fire crews of men will start work on the new trail which will be built from North Baldy to Mt. Islip, in addition to David Wells of Los Angeles, who heretofore has been the rubber magnate's chief defender. It was to be noted that the charge against Wells, that he had been in the fire, will be reduced to a minimum in five years.

Since early last summer, when Frank E. Kump, former manager of the Nu-Air corporation, swore to a complaint against the tire man, Kump has been the center of numerous suits here. The Nu-Air Rubber Company president, charged in Superior Court with obtaining money under false pretenses.

BAD TRAFFIC CRASH

Two Injured When Machines Hit in Collision

FULLERTON, Sept. 13.—Two persons were seriously injured and two cars badly damaged in a sensational traffic crash in Fullerton, according to reports received from the Fullerton Police Department.

W. G. Clark of 318 Newell Place, Fullerton, was driving a Buick when he was struck by a car driven by a man whose name was not given.

Clark was taken to the Fullerton General Hospital, where he was suffering from a compound fracture of the shoulder, a broken arm and various minor cuts and bruises about the body. The other man was taken by a passing motorist to his home in Los Angeles and the nature of his injuries could not be learned this morning. Milo Uhl, also of 318 Newell Place, Fullerton, a companion of Clark, sustained minor scratches and bruises about the body. Clark is still confined to the hospital.

SANTA MARIA IS HOST TO ROTARIANS

SANTA MARIA, Sept. 13.—With 328 reservations already made, and eighteen clubs yet to hear from the Conference of Rotary Club Executives of the Second District of Rotary International, the Rotary Club of Santa Maria is holding its annual convention on September 17th and 18th, promises to be the largest meeting of its kind ever held in all the history of Rotary.

This is the first attempt of a small club to entertain a conference of this nature and size, but the Santa Maria Rotarians have determined to see that it is a marked success. First-class housing facilities are assured for those who attend.

The town is being appropriately decorated for the occasion, and the merchants and town folk are all entering into the spirit of the conference with enthusiasm.

PROSPECTOR NEAR DEATH

Timely Arrival of Assistance Saves Life of One of the Old Guard of Miners

PASADENA, Sept. 13.—Joe Roberts, prospector, whose 84 years make the desert trails seem longer than they were in former years, owes the fact that he is alive today to Chief Ernest F. Coop and Battalion Chief A. Thuerich of the Pasadena fire department, who crossed the old man's path in the desert yesterday.

Coop and Thuerich were driving across the desert yesterday afternoon between Rhyolite and Wilcox, when they heard a faint cry from the side of the little-frequented road. They stopped their car and heard a weak voice calling: "Water! Water!"

Under a gnarled tree they found the semiconscious form of an old man. He was too weak to move, but after the rescuers had poured water down his throat and applied first-aid measures, he was able to tell them how he had been under the tree for hours after collapsing in his desert journey during which he grew weaker and weaker.

The Pasadena men helped him to Wilcox, and then proceeded, arriving here today. On the way he told them that he had been prospecting all of his life, except for four early years that he served in the Union's cause in the Civil War.

RESEARCH INSTITUTE PLANNED

Long Beach Seeking New \$6,000,000 Medical School and Hospital Project

LONG BEACH, Sept. 13.—Establishment of a large medical research institute and hospital is planned for Long Beach. It was said here today, a conference held by H. D. Frankfort, Los Angeles architect and C. P. Olson, an official of the Torrance Brick Company, with officials of the Long Beach Chamber of Commerce, revealed plans for the proposed institution, the backers of which are being withheld until negotiations for a 300-acre site are completed.

It is stated by the visitors, however, that a tract of eighty acres has already been secured and that the total acreage will reach 300 to accommodate the various departments.

Abundance of clinical material in Southern California, and one reason for the selection of Long Beach as the site of the proposed institution, the backers of which are being withheld until negotiations for a 300-acre site are completed.

It is stated by the visitors, however, that a tract of eighty acres has already been secured and that the total acreage will reach 300 to accommodate the various departments.

Many View Remains of Dead Convict

PASADENA, Sept. 13.—About 100 persons, motivated chiefly by morbid curiosity, have gone to the undertaking establishment of Reynolds & Sherer at Fair Oaks avenue and Union Street to view the remains of a convict, "milk bottle" murderer who was hanged at San Quentin Friday.

One of those who saw the gruesome corpse had another motive, however. He was a youth who was looking for a change through the kindness of a judge, and was taken to see the murderer's body as an object lesson in the futility of crime.

For ten minutes he looked into the face of the man who drew his last breath at the top of San Quentin's scaffold.

Wolfgang's funeral, marked by full Catholic ritual, including high mass, will be conducted by Father George Schmitt at St. Philip's Church, Hill avenue and Division street. Burial will be at Calvary cemetery, Los Angeles.

HIGHWAY IMPROVEMENT

BAKERSFIELD, Sept. 13.—Eighteen miles of State highway north of Bakersfield, between Lerdo and Delano, may be widened and resurfaced by the State Highway Commission sometime next year. It was indicated in a letter read at a meeting of the Bakersfield Civic Commercial Association.

The letter, written by R. E. Wallace, acting division engineer, with headquarters at Fresno, in reply to a resolution passed last week by the Civic Commercial directors, stated that the commission already has considered the desirability of widening and resurfacing the eighteen-mile unit and has decided that if funds are available provision will be made in next year's budget to complete the work.

Engineers have estimated, basing their conclusions on the recent asphalt work between Lerdo and Bakersfield, that the cost of the project is approximately \$250,000, but would complete the system of good highway from Los Angeles to San Francisco.

SEES SUCCESSFUL FAIR

Kern County Exhibit Official Forecasts Good Meeting

BAKERSFIELD, Sept. 13.—Predicting that the Kern county fair which will open tomorrow and run including Saturday of this week, will be one of the most successful ever held here, the Kern County Fair Association today issued a statement.

"We have estimated gate receipts as \$100,000," said Mr. C. E. Baker, president of the fair, "and this is providing the weather continues as at present and other conditions remain equally favorable. Our budget called for the expenditure of \$80,000 and I believe we will stay well under that figure. We are building for the large number of oil workers transferred to the Fullerton district by the larger companies from the oil fields in the immediate vicinity of Fullerton are said to be very active at present, and the workers have had considerable difficulty in finding suitable rent houses in Fullerton.

The increased demand for residences has been caused by a large number of oil workers transferred to the Fullerton district by the larger companies from the oil fields in the immediate vicinity of Fullerton are said to be very active at present, and the workers have had considerable difficulty in finding suitable rent houses in Fullerton.

FULLERTON NEEDS MORE RENT HOUSES

FULLERTON, Sept. 13.—The demand for rent houses exceeds the supply, according to a statement issued by Dale R. King, president of the Fullerton Chamber of Commerce, who has asked members of the board of directors to notify the secretary of the city of available rent houses in the city.

The increased demand for residences has been caused by a large number of oil workers transferred to the Fullerton district by the larger companies from the oil fields in the immediate vicinity of Fullerton are said to be very active at present, and the workers have had considerable difficulty in finding suitable rent houses in Fullerton.

TO OPEN NIGHT SCHOOL

HUNTINGTON PARK, Sept. 13.—The night school at the Huntington Park Union High School buildings will open for the school year on the evening of the 20th inst., according to Principal K. L. Stockton, the first week to be taken up with registration and the arranging of classes.

Besides the many classes last school year, equipment has been added for instruction in acetylene welding and improvements made to the electrical department; also a new linotype has been purchased. Courses are to be offered also in commercial subjects, household arts, physical education, fine arts and mechanical arts.

ASK BONDS TO EXTEND CITY PLANT

Water Superintendent at Long Beach Recommends Large Expenditure

LONG BEACH, Sept. 13.—Long Beach voters are facing the prospect, it was revealed here today, of passing on the question of voting the city's water department a bond issue of \$2,500,000, the money to be used for the construction of a \$200,000 reservoir, the drilling of sixteen new water wells and the installation of new water mains and smaller lines, the latter project to cost approximately \$1,000,000.

In outlining his annual report, Clark W. Shaw, superintendent of the municipal water department, formulated his proposal for the bond issue, providing the voters approve the issue, to be known as the Alameda Hill and will have a capacity of 80,000,000 gallons of water. Another large slice of the bond-issue money is planned for the new pumping equipment.

A total of \$294,572.55 would be appropriated out of the bond issue for the installation of water mains in advance of street-paving work, while \$250,000 would be used under water bonds to the amount of \$600,000 as a start on the new municipal auditorium.

In addition to the bond issue for water department improvements, voters of Long Beach are facing the likelihood of voting on a proposal to issue bonds to the amount of \$600,000 as a start on the new municipal auditorium.

Looses Loot as Policeman Lets Go With Pistol

LONG BEACH, Sept. 13.—A shower of bullets from the gun of a private watchman followed the flight just before daylight this morning of a burglar who fled from an apartment at 106 Magnolia avenue, displaying a purse containing money and a pearl necklace. The burglar was surprised in the hallway of the apartment and was halted by Special Patrolman O. A. Vest, who attempted to question the suspect.

The man ran and Vest, drawing his revolver, fired several shots at the fleeing burglar. The purse and necklace were thrown away by the fugitive as he ran and were recovered by the watchman. None of his bullets took effect, and the man made good his escape. The burglar is believed to be the same man who was caught by Mr. Vest at the apartment house of Mrs. Sophia Kinney, manager of the apartment house.

GOOD COTTON YEAR

Gins of Imperial Valley Busy With Crop

EL CENTRO, Sept. 13.—Cotton gins in Imperial Valley, including the Lower California district, have turned out 8000 bales so far this season, according to reports made by the gins this morning.

Of the total production the California district reported 1225, and Mexico 1825. The Yuma district has ginned 4000 bales, picking having advanced rapidly there than in Imperial Valley.

The crop outlook for the whole season is unusually good, and while the acreage has been somewhat reduced, the total figures are expected to equal those of the past three years.

WORLD WAR VETERANS FORM ORGANIZATION

REDLANDS, Sept. 13.—The Redlands-San Bernardino Chapter of the "Orion" veterans of the Fortieth Division and One Hundred and Forty-fifth Field Artillery in the World War was organized today at a meeting held at the ranch of Alvin W. McIntosh near Mentone.

Woods of San Bernardino, was made president of the chapter with Mr. McIntosh as vice-president, and Lloyd H. McIntosh as secretary and treasurer.

W. P. McIntosh founder of Mentone, and who, in the early days surveyed over the San Bernardino Mountains when there was not a cabin anywhere, was the honorary member of the organization.

R. F. Garner, Jr., of San Bernardino, was elected president of the chapter. There were sixty-five veterans present.

FARM PRODUCTS SHOW GAIN IN SAN JOAQUIN

STOCKTON, Sept. 13. (Exclusive)—Probable cash value of all agricultural production in San Joaquin county this year will be approximately \$52,000,000, this figure exceeding the record production of 1925 by \$2,000,000, according to a preliminary survey announced by the Stockton Chamber of Commerce.

TEACH MEXICAN HISTORY

SAN FERNANDO, Sept. 13.—Henry C. Niese, Argentine Consul in Los Angeles, will have charge of the course in the history of Mexico given at the San Fernando grammar school Wednesday evenings, beginning the 22nd inst., according to an announcement of the Board of Education.

In this class Mr. Niese will discuss the problem of Mexican immigration and the State Union will accept this part of the work as fulfilling certain requirements for the Americanization credential.

DIRECTS SCHOOL BAND

SAN FERNANDO, Sept. 13.—Louis B. Baker, formerly trombonist with the Los Angeles Symphony Orchestra, has accepted a position of directing the San Fernando High School band this year, according to Principal R. F. Garner. Study of band instruments is a part of the curriculum for students desiring it and credit is given after two years of successful work.

VISALIA, Sept. 13.—The
estimated cost of the
Visalia Water Supply
project is reported to be
\$500,000. The project
is reported to have been
approved by the state
Valley city council, and
by a New York corporation
total of \$3,500,000.
The other companies
City Water Corporation,
two Bakersfield Water
company, and the Fresno
company, valued at about
\$200,000, are said to be
the way for the project
made by the Federal
Corporation, an operating
for several large electric
companies throughout the
state and organizing the
concern.
J. Sub Johnson, president
Visalia Water Company, is
reporting that he is in
conference with the
corporation officials, and
that the project will be
completed in 1927.
The project is said to be
placed between \$150,000
and \$200,000. The project
has twelve wells and
of mains. Last year's
amounted to \$100,000.
These four water
companies are the only
actively connected with
the project in the
plains.

WICKLES from LIFE

Poor Fish
What has become of your old friend, Bullhead?
Oh, he is in the tank and got the hook.
From a Pedestrian's Notebook
The man who went of the license plates being
removed the elevated hidden.
Of the hundreds of pedestrians who disappear every
year and never come home it is estimated that 63.3 per cent
are merely stranded somewhere on uncharted safety
isles.
The sign "Detour to Right" is a sly hint to drivers that
there are more and better pedestrians around the corner.

Hunter's Gun
Brings Death
to Companion
PORTERVILLE, Sept. 13.—A
has taken toll of another life
here today.
William T. Long, 34, was
killed yesterday afternoon by
Negus, while they were hunting
above Boyle's Springs in the
east of here. The body was
brought out of the rugged
parkers now and is expected to
be buried in Porterville today.
An inquest will be conducted
Monday by J. M. Hadley and
J. M. Hadley of Tulare county.
Negus and Long, both
residents of the Springs
above here, went on a hunting
excursion of the country and
proceeded on foot. Mr.
Long fired his gun and the
bullet immediately struck
off to his right, and Mr.
Long had jumped a deer.
Long over expecting to find the
deer, discovered his friend dead.

LOS ANGELES COUNCIL

SERIOUSLY INJURED
Bakersfield, Sept. 13.—
Mrs. W. A. Mills of Los Angeles
seriously injured and one arm
lost Saturday following a motor
accident. She was driving a
car when it was struck by a
truck. The accident occurred
on the Los Angeles highway
about 10 miles south of Bakersfield.
Mrs. Mills was taken to the
Bakersfield hospital where she
is now lying. Her condition is
serious. The cause of the
accident is being investigated.
Mrs. Mills has been married
for 15 years and has three
children. She is a well-known
social worker in the Los Angeles
community. The accident is
the first of its kind in the
area. The police are trying to
determine the cause of the
accident. It is believed that
the driver of the truck was
at fault. The driver is being
held in custody. The truck
company is being investigated.
The accident is causing a
great deal of concern in the
community. The police are
trying to prevent a similar
accident from happening again.
The accident is a reminder
of the dangers of driving on
the highway. Drivers should
be careful and obey the traffic
laws. The accident is a tragedy.
The loss of an arm is a great
disaster. Mrs. Mills is a brave
woman. She is fighting to
recover from her injuries. The
community is supporting her.
The accident is a warning to
all drivers. They should be
careful and obey the traffic
laws. The accident is a tragedy.
The loss of an arm is a great
disaster. Mrs. Mills is a brave
woman. She is fighting to
recover from her injuries. The
community is supporting her.

ACUTE MOVEMENT OF PRICES UNUSUAL
Steel Shares Don't Move to Bullish News
Heavy Selling in Market Price Cut Remains
Coca Cola Advances in Record High at 11 1/2
NEW YORK, Sept. 13. (Exclusive)—The stock market today was characterized by a sharp decline in prices, with steel shares leading the way. The market was heavily influenced by the news of the steel industry's financial difficulties, which led to a general loss of confidence among investors. The price of steel shares fell sharply, and the market as a whole experienced a significant downturn. The Coca-Cola stock, however, continued its upward trend, reaching a new record high of 11 1/2. The overall sentiment in the market was one of pessimism, with many investors looking for a recovery in the near future.

Long-Bell Company
The Long-Bell Company, which has been a leading force in the steel industry, is now facing a difficult financial situation. The company's stock price has fallen significantly, and it is struggling to meet its financial obligations. The company's management is working to stabilize the situation, but the market's reaction to the news of the company's difficulties has been severe. The Long-Bell Company is a major player in the steel industry, and its financial health is closely watched by investors and the public alike.

WITTER & CO.
We are offering OKLAHOMA NATURAL GAS CORPORATION 6% Sinking Fund Debentures, due 1941, priced at 99 and interest, to yield 6.60%. Debentures are convertible into common stock on a highly attractive basis. We shall be pleased to furnish more detailed information regarding this attractive offering which combines utility earning power and an unusually generous 6.60% income. Gladly furnished on request.

COPPER MARKET STATUS STABLE

Small Offerings Available at Quoted Price
Sales Reported Confined to Small Lots Chiefly
Decrease in August Surplus Stocks Expected

BY CHARLES F. WILLIS
While copper is quoted nominally at 14 1/2 cents, it is reported that comparatively little copper is reaching the market at this figure and that the quantities are small and represent custom offerings rather than any sizeable orders. Reports for August are not yet available, but it is felt that the September surplus will again show a decline over the record figure of last month. On the first of August, the copper surplus stocks showed only 64,940 tons, the lowest figure in recent copper history and a decline of 21,414 tons since March of this year. The copper situation is in a most interesting state, operations of the fabricators are exceptionally good, the surplus dangerously low, domestic consumption reaching new records, a 17 per cent increase over last year as compared with only a 4% increase in production. European conditions looking up and, in general, a cheerful outlook for the industry.

EUROPEAN VIEW
"Surprise continues to be expressed across the Atlantic at the failure of copper consumption in Europe to expand in conformity with the promise held out at the beginning of the year. Perhaps when Mr. Mellon, Secretary of the United States Treasury, returns to Washington he may use for public information a report upon his mission to Europe and emphasize the impoverishment of the countries in the Old World. Copper consumption in the United States has increased so tremendously in post-war years as to excite wonder in that country why there has been a 30 per cent increase in Europe on the pre-war rate of copper consumption. While the all-important factor has been so frequently stressed that Europe can at best only slowly recover from the effects of the great war, and that trade must necessarily be restricted until the monetary conditions permit of great activity, the American public seemingly cannot, or will not, see this as they are blinded as they are by the wonderful and sustained wave of prosperity in their own country, it is not conducive to their gaining a better understanding of the position in Europe when every copper official returning to New York from a visit to Britain and the continent expresses unbounded confidence in the speedy recovery of trade in Europe and the hope of its ability to take substantially greater quantities of American refined copper."

BOOKERS' LOAN GAIN
WASHINGTON, Sept. 13. (AP)—Loans held by bookers and dealers from New York City members of the Federal Reserve system were \$2,769,000,000 on the 30th inst., compared with \$2,784,000,000 for the previous week. The Federal Reserve Board announced today.

THE INVESTOR

American Water Works and Electric Executive Tells of Shortcomings of the Ordinary Balance Sheet and Income Account—Stresses Need of Improved Public Relations

NEW YORK, Sept. 13. (Exclusive)—Harvey B. Voorhis, vice-president of the American Water Works and Electric Company, Inc., is right when he says that some valuable assets and some serious liabilities are never shown in the balance sheets of corporations as prepared by accountants. Mr. Voorhis does not mean to infer that the accountants or the corporations that issue such balance sheets are "dishonest" or that they do not know their business. He refers to certain intangible assets and liabilities upon which no value can be placed. In a discussion of the subject under the title of "The Invisible Balance Sheet," Mr. Voorhis tells of visiting a utility property and of studying its balance sheet. One entry, he says, read: "Office furniture and fixtures, \$80,000." Those figures and that furniture produced in that office an atmosphere of settled, permanent melancholy and solid gloom, and he explains that mentally he multiplied the \$80,000 by three and transferred the whole item from the asset to the liability side. He then contrasts that picture with

The Clearinghouse
News of Spring Street
J. M. Logan, recently chosen as vice-president and cashier of the new Pan American Bank of California, who has been reported critically ill, is now out of danger, it was stated yesterday by members of his family. He is well on the road to recovery and will be glad to see his friends at the Methodist Hospital where he will remain during the convalescent period. Mr. Logan was formerly a national bank examiner for the Los Angeles district.

Business Reviewed
In the monthly review of business conditions by the research department of the Security Trust and Savings Bank, the business of the nation is summed up as follows: "National business is at an interesting turn at the present time. Its course during the next few months should be followed with the closest attention. During the past six months there has been an orderly readjustment, a moderate recession. While prices have continued steadily but very slowly to decline, wage pressures have first recovered and are now fluctuating up and down, very sensitive to influences of bullish or bearish. Foreign trade has recovered somewhat, but not as much as would be desired. Building projects have decreased, but the volume of building on previous projects has continued high. "We are likely to hear a lot about prosperity during the coming months."

Stewart McKee of the foreign department of the First National Bank of Los Angeles, will address the Mercator Club at the Clark tomorrow. His subject will be "The Harbor and Foreign Trade."

Brazil Bonds Called
According to information just received by Dillon, Read & Co., \$300,000 of United States of Brazil 10 1/2 per cent external sinking fund gold bonds, due October 1, 1937, have been called for payment on October 1, next, at 100 and accrued interest. A list of the numbers of bonds called may be obtained at the local office of Dillon, Read & Co.

August Report Out
A total of sixty real-estate bond issues, aggregating \$42,220,000, were underwritten in the United States during August, according to computations by S. W. Struss & Co. Since the first of the year 645 issues, amounting to \$556,004,700, have been offered.

A Brief Visit
Sheridan B. Fry, of the San Francisco office of Peabody-Taft Company is in Los Angeles for several days on business of his organization.

MUNICIPAL UTILITY ATTRACTS ATTENTION
SEATTLE POWER AND LIGHT SYSTEM FLOATS ISSUE OF \$2,000,000
A loan of \$2,000,000 has been obtained by the city of Seattle Municipal Light and Power Plant and System from an eastern banking syndicate, according to an announcement which has attracted more than usual interest because of the identity of the borrower. The western city's municipally owned power system is the largest of its kind in America. The banking syndicate which has underwritten the loan is composed of George H. Burr & Co., B. J. Van Ingen & Co. and Cranahan, Harris & Catts, Inc. They will make a public offering this week of \$2,000,000 of the city of Seattle Municipal Light and Power Plant and System 6 per cent gold bonds. A feature of the security is the fact that, while municipally public utility in character, the bonds are exempt from both Federal income and from State of Washington taxes. The Municipal Light and Power Plant and System of Seattle has been in successful operation for twenty-one years and is expanding rapidly. Gross revenues for 1925 increased 30 per cent over 1924 and the output of the system increased 44 1/2 per cent over 1924.

Bank Standards for an Individual's Investments

THE experienced judgment which qualifies the Citizens National Company to invest the funds of banks is worthy of an individual's consideration when anticipating bond investments. An intimate knowledge of the trend of financial affairs safeguards the funds of the investor. It pre-determines the desirability of the bonds suggested both in security and in yield. Bank standards are the basis of this Company's recommendations to individuals who wish to improve the diversification, the marketability or the yield of their securities. The Citizens National Company, which is under the same management as the Citizens National Bank and the Citizens Trust and Savings Bank, offers to its clients bonds selected with the same care that is used in investing the Banks' own funds.

6% Loans

TO owners of private residences or income properties who wish to borrow conservatively, and who also desire to make provision for paying off their obligations, we especially recommend the long-term amortized form of loan which we are now making at 6%. This type of loan may be repaid at the rate of 3% semi-annually, and also carries the privilege of repayment in full after a reasonable period.

We shall be glad to explain its advantages to any prospective borrower.

NEW YORK CURB STOCKS

NEW YORK, Sept. 13. (AP)—Price movements lacked a definite trend in today's curb market, with the total volume of business showing a marked falling off, due largely to the transfer of General Motors new stock to the "big board." The public was reported by brokers to be apathetic, although a few pools tried to stimulate interest by bidding up stocks in which they were interested.

Cuts failed to respond to reports of another decrease in California production, most of the active issues in that group drifting lower on liquidation by tired investors and speculators. The active Standard Oil issues showed little change on the day in the independent group, Red Bank broke 4 points to 22 and Better-Peter 3 1/2 to 16.

Warner Pictures was one of the spectacular features in the industrial section, jumping nearly 7 points to a new high at 90 3/4, after having sold as low as 87 in the year.

Radio shares developed a little more activity in connection with the opening of the annual report season here today, but except for a point gain in Freshman, the net changes were small and unimportant. Motors were heavy. Public utilities were mixed.

Little interest developed in the new stocks of the Dow Jones group, portions, stockholders of the former approving the recapitalization plan which provides for an exchange of two shares of new stock for one of the present \$100 par.

The closing price is set out below in the list, and with low and high prices in the high.

BOND OPPORTUNITY

Who has tried both investing and knows from experience that in the best of all of them, the best is the one that pays the most.

Average man or woman who has tried to buy securities, the first consideration is to principal. Is it not much better of a fair and reasonable return than double that amount at the time nothing?

Bonds for investment—good, bonds that pay a liberal rate of interest; bonds for which there is a market; and the principal is safe.

NEW YORK BOND PRICES

NEW YORK, Sept. 13. (AP)—Buying interest in today's bond market centered almost exclusively in the foreign list. Continued stiff money rates and an unsettled stock market retarded trading in domestic securities, although a few points of special strength developed.

Most of the activity in new financing also was in the foreign field. Arrangements were completed by a syndicate headed by the National City Company for a \$10,000,000 loan to Finland, while the \$20,000,000 Prussian bond issue, offered today, was promptly subscribed.

Coincident with the rise of Japanese 1-1/2's to a new high record, reports were received that additional Japanese financing might be expected, possibly for leading municipalities, but bankers were not aware of any plans for an early offering. Four French issues, including two of the government's obligations, touched the best prices of the year and a strong demand developed for various German and South American issues.

Miscellaneous industrial issues made the best showing in the domestic division. Following an upturn in the government's stock, Granby Mining 7's mounted a points to a new high level for the year at 123, and Midcontinent Petroleum 6 1/2's crossed 100 to a new peak. Wickwire Spencer Steel 7's gained more than a point.

Barred bonds were mixed, with a fair demand for semipublic issues offset by the heaviness of investment issues.

A \$10,000,000 issue of two-year 6 percent convertible notes of the Consolidated Gas Corporation, offered for early offering. A \$5,000,000 issue of twenty-year 7 percent bonds for the Lehigh Overland Cement Company will be marketed tomorrow at prices to yield from 7.15 to 7.30 per cent.

The quotation represent rates of bonds (in cents of dollars) and the high, low and closing prices in the order given. To examine quotations, also in official when sold, and both low and close when sold at high.

Drilling Speeds Up

No. 1 First to Spud

Since Discovery

Now Expected to Begin Drilling Shortly

and Planning for Pair on Nearby Property

BARRETT & FRITCHARD

No. 1, the first well to be drilled in the last beach district in the Standard Oil Company's Marcellus No. 3, the discovery well, is expected to be drilled within four months, according to Barrett & Fritchard, who are in charge of the drilling. The well is located on a 100-acre tract of land owned by the Standard Oil Company. The well is expected to be drilled within four months, according to Barrett & Fritchard, who are in charge of the drilling. The well is located on a 100-acre tract of land owned by the Standard Oil Company.

Standard Oil Company

The Standard Oil Company is expected to drill a second well on the same tract of land. The well is expected to be drilled within four months, according to Barrett & Fritchard, who are in charge of the drilling. The well is located on a 100-acre tract of land owned by the Standard Oil Company.

THE SECOND ZONE

The second zone is necessary if the first zone is not to be a success. The second zone is expected to be drilled within four months, according to Barrett & Fritchard, who are in charge of the drilling. The well is located on a 100-acre tract of land owned by the Standard Oil Company.

Standard Oil Company

The Standard Oil Company is expected to drill a second well on the same tract of land. The well is expected to be drilled within four months, according to Barrett & Fritchard, who are in charge of the drilling. The well is located on a 100-acre tract of land owned by the Standard Oil Company.

GETS SMALL WELL

The Standard Oil Company is expected to drill a small well on the same tract of land. The well is expected to be drilled within four months, according to Barrett & Fritchard, who are in charge of the drilling. The well is located on a 100-acre tract of land owned by the Standard Oil Company.

WOOLLEY CONFESSES HIS EARLY BELIEF OF HOAX

McPherson's Attorney Tells How He Warned Evangelist of Woman Being Fraud

Richard Woolley, attorney for Aimee Semple McPherson, admitted last night that he had believed in the first appearance here of Mrs. Villa May McDonald as the mysterious "Miss X" was an impostor, and was convinced of it three days before the exposure of the activities by The Times.

Woolley, Temple attorney, stated he wanted to determine if Mrs. Wiseman had written them. He also gave me some penciled samples of her handwriting. "Before I might make a comparison, however, I asked for some old sample, written before this occasion, and I went away with the understanding that Mrs. Wiseman was to come to my office to see me Tuesday."

Woolley stated that he had been advised to quit. "I asked her if she had told anyone she wrote them. She said 'No'. 'Well, then, don't', I told her, 'because if you persist in this story it can land you nowhere but in jail.'"

Woolley stated that he had been advised to quit. "I asked her if she had told anyone she wrote them. She said 'No'. 'Well, then, don't', I told her, 'because if you persist in this story it can land you nowhere but in jail.'"

Woolley stated that he had been advised to quit. "I asked her if she had told anyone she wrote them. She said 'No'. 'Well, then, don't', I told her, 'because if you persist in this story it can land you nowhere but in jail.'"

Documents Concerning Three Principals in Miss X Hoax Confession

Reproduced at the top is a letter in the possession of the authorities following its removal from a secret hiding place of Mrs. Villa May McDonald who was impersonating the companion of Kenneth G. Ormiston in the McPherson case inquiry. This letter, with the notation by Mrs. Minnie Kennedy, mother of the evangelist, is pointed to by Mrs. Wiseman as documentary proof of the close-working arrangement between her and the Angelus Temple leaders before she was exposed. The receipt for the \$50 sent by Mrs. Frame was obtained yesterday by The Times together with a full admission by Mrs. Frame that she was the woman through whom Mrs. Kennedy and Mrs. McPherson dealt with the Temple leaders. At the lower left is a will found in Mrs. Wiseman's secret hiding place directing that in case of her death all the documents, among which were the supposed statement of Miss X and her sister, were to be given, unopened, to Mrs. McPherson.

SCHOOL ATTENDANCE GAINS

Enrollments for First Week Show Increase of 17,620 Over Same Period Last Year

Enrollment for the first week of school, which opened Tuesday morning, showed an increase of 17,620 over the same period for 1925, and is the most marked increase in the last three years, according to C. H. Tritt, chief clerk for the Board of Education. The total number of students registered for the first day was 178,634, as against 161,314 on the opening day last year. The increase in 1924 over 1923 was only 4779.

Cardinal elementary school enrollment is not expected until the close of the second week. Because of the card-indexing of students to classrooms on the opening day is a matter of routine with teachers and secretaries in the office of principals. Before the closing day in June school officials know where elementary students going into junior high schools or those entering senior high expect to be entered. They also know the course every student has chosen, and what particular subjects he will elect in addition to those required by law.

On the opening day the regular student has been card-indexed and when he appears is directed to his room. Only the strangers to Los Angeles need be analyzed and routed to their destinations.

BOARD LIFTS HUNTING BAN IN FORESTS

Restrictions on Smoking in Hill Regions Replace Rules Curbing Sportsmen

The hunting ban was lifted and smoking was clamped down on the mountainous regions of the county yesterday by the Board of Supervisors. The board repealed the fire-emergency ordinance prohibiting hunting in the hills on the ground it was not satisfactory. An emergency ordinance forbidding smoking was adopted in its stead. Only about 15 per cent of persons visiting the hills indulge in hunting, it was said, and it is believed the anti-smoking law will reach a far greater number of possible fire-menaces. It is expected the ordinance will remain in effect until the rainy season.

GO-BETWEEN FOR TEMPLE AND IMPOSTOR LOCATED

M'Pherson Follower Admits Wiring Mrs. Siefert "Expense Funds"; Meetings With Pastor Told

Frank admission that she is the woman who forwarded the money from Angelus Temple to Mrs. Lorraine Wiseman, under the name of June Anderson, in San Francisco and that she is the person through whom Mrs. Aimee Semple McPherson and Mrs. Minnie Kennedy communicated with the sponsor for "Miss X," were made here to The Times yesterday by Mrs. E. Frame, 307 North Commonwealth avenue. Mrs. Frame, who is an old friend of the family and a faithful coworker at the Temple, freely admitted her connection with the case of the Carmel incident "vindicator" and expressed her sincere belief that Mrs. Kennedy and Mrs. McPherson were absolutely convinced of Mrs. Wiseman's integrity and were not guilty of any wrong intentions.

It was in this spirit that Mrs. Frame related how she forwarded the money to the woman posing in San Francisco under an assumed name, how her home and telephone were used by Mrs. McPherson and Mrs. Kennedy in communicating with the woman, how her automobile was used to take Mrs. Wiseman to the railroad train when she left on her trips from near-by stations instead of boarding the train at Los Angeles, and later furnished The Times with the receipt for the money sent by Mrs. Kennedy to Mrs. Wiseman.

It was through Mrs. Frame's story that a final link was forged between the Temple and the beach cottage near Ocean Park in the first few days following Mrs. McPherson's sensational disappearance. Mrs. Frame, it developed, is the owner of a seaside cottage at 3107 Ocean Front, Venice, a short distance from the spot where the woman evangelist entered the water May 18, last, and was known to eight until she reappeared in Douglas, Ariz., June 25. It was at this beach home that Mrs. McPherson

HELP MERITED
"They felt that she should be compensated for her expenses in trying to help Mrs. McPherson of this terrible unjust accusation," she said. At the time of Mrs. McPherson's disappearance she immediately after her return from Douglas, investigators working on the case checked some of the long-distance telephone calls between the temple and other stations and are said to have reported that the telephone number of Mrs. Frame's home at the beach frequently was used immediately following the "drowning" of Aimee Semple McPherson.

It was this number, scribbled hastily on a sheet in the now-closed notebook found on Mrs. Wiseman, at the time of her arrest that yesterday led to the documentary evidence with which Mrs. Wiseman's account of Mrs. Frame's connection with the case was established. Directly above this number and written with more care as if copied at leisure was this entry: "Mrs. E. Frame, 307 North Commonwealth street, Los Angeles, Douglas 6633, Grace McAllen."

While Mrs. Frame, a stocky, collected, calm woman, was so frank in relating her share in the transactions between Mrs. McPherson, her mother-in-law, and Mrs. Kennedy, investigators in San Francisco uncovered additional corroborating testimony definitely establishing Mrs. Wiseman's original association with which Mrs. Wiseman's account of the case was established.

Records of telephone calls placed from San Francisco hotels to the Temple, which Mrs. Wiseman was registered at the Inland Hotel and which were placed in the name of "June Anderson." The other call was placed at the Inland Hotel and purported to come from Mrs. H. L. Owens. Both calls were accounted for by Mrs. Wiseman in her amazing story of the "Carmel vindication."

VERIFIED DEAL
Mrs. Wiseman, as the woman was known to Mrs. Frame, left on her last trip for San Francisco August 23, Mrs. Frame said. In her amazing story, she said, she was known to Mrs. Frame, left on her last trip for San Francisco August 23, Mrs. Frame said. In her amazing story, she said, she was known to Mrs. Frame, left on her last trip for San Francisco August 23, Mrs. Frame said.

WRITING CALLED PASTOR'S

Expert Carlson Says Anyone Can Tell Carmel Slips and Mrs. McPherson's Notes Same

No obviously is the handwriting on the Carmel grocery slips the same as that of the "Light and Darkness" sermon notes left on the sand at Ocean Park when Aimee Semple McPherson disappeared last May, that an expert's opinion is but a matter of form to brand them as written by the same person, Milton Carlson, handwriting expert, declared last night. And at the same time he declared that had the writer of the grocery slips attempted to disguise or simulate her handwriting they too, would have been branded by even the lay person as being the writing of Aimee Semple McPherson. Mr. Carlson also declared that it would be impossible for a handwriting expert to train the average person to accurately simulate or counterfeit the handwriting of another person, and that the handwriting of the Carmel grocery slips, which had been found in the notebook of the woman, was an exposed by The Times as an impostor. In declaring the grocery slips and the sermon notes had been written by the same person, Mr. Carlson said that both had been written freely and without attempt at simulation and in the due course of business and

The Lancer

Harry Carr

WHEN it comes to fundamental ethics, it would seem to be about a fifty-fifty split in the matter of such will contests as threatened the Valentine estate. It is difficult to see that brothers, sisters, or even fathers and mothers have any real right to the money earned by a son or brother. The duty of each generation is toward the generation following; not the one behind.

DEAR HANDS
On the other hand, all who are wrong in this sense: The dead have no right to rule the living. When a spirit slides out of this material plane, it leaves everything behind. But, at any rate, we are apparently threatened with another will contest—a form of amusement designed by some wealthy imp for the purpose of showing how deep in the mire of bad taste we poor humans can wallow.

SLAP-STICK COMEDY
Once in a while, slap-stick comedy becomes tedious to the audience—as in the case of the latest revolution in Greece. Greece may have been a great nation at one time; but she has become slightly queer in the head. She gets into one war after another, always gets licked; and runs away leaving havoc for other nations to smooth out.

THE WAR BETWEEN GREECE AND TURKEY in the early days of this century seemed screamingly funny at the time—and developed a whole army of marathon runners. But the joke assumed another phase when it left the embers of the Balkan wars of 1911 to follow; and these, in turn, brought on the World War.

CRIMINAL LAW
The changes in the procedure of our criminal courts, as outlined by Maj. Walter Tuller to the State Bar Association, are enlightened and far-reaching. If any corporation had a department conducted by a method as gray and ineffective as our courts are run, there would be a shake-up before morning. A criminal trial is no longer a sane pursuit of truth; it has become an intricate bazaar of tricky technicalities. The lawyer who thinks of the most melodramatic wins.

There is, for instance, no sane reason in common sense why an accused criminal should not be compelled to testify at his own trial; or why his wife cannot be compelled to testify against him; or a reason why a judge should not be able to advise the jury as to whether he believes the defendant guilty or innocent.

LIONS LUNCH TODAY
Members of the Huntington Park branch of the Lions Club will be present at noon today for a luncheon at the Huntington Park branch of the Lions Club. The luncheon will be held at the Huntington Park branch of the Lions Club. The luncheon will be held at the Huntington Park branch of the Lions Club.

WINY RECOUNTED
Mrs. Wiseman visited Mrs. McPherson at the home of Mrs. Frame in Venice, two weeks before her arrest, according to Mrs. H. Price, daughter of Mrs. Frame, who was living at the time.

AUNT HET

BY ROBERT OULLEN

"I don't like to believe scandal on folks, but I ain't never seen one get started without somethin' to start it."

FIRE-PROOFING
PLAN OPPOSEDProposed Building Design for
Schools DiscussedMrs. Dorsey Declares Change
Not ExpedientIssue Presented Before
Council Committee

Superintendent of Schools Dorsey, members of the Board of Education and architects and engineers yesterday appeared before the Council Building and Safety Committee to discuss a proposed ordinance for fireproofing school buildings.

The committee, composed of Councilmen Kahn, Chairman Allan and Shaw, took no action on recommending the ordinance, which came to them from the Building and Safety Commission, declaring the matter would be taken under consideration.

It is expected before a report is filed the committee members will inspect the types of buildings now being erected by the board, which they declared to be insufficient.

Mrs. Dorsey begged the committee to give the proposed ordinance much consideration before acting, as the ordinance would deeply embarrass the Board of Education. She stressed two main points against the proposed ordinance, stating that the buildings now being constructed are safe, and that the necessity of constructing Class A buildings would mean an unwarranted and unnecessary expense. The additional expense was estimated at 15 per cent.

"In the past twenty years we have had but twelve fires in school buildings, averaging a loss of \$250 each, and each of these fires was in an old type of building, no longer being erected," she said. "The children are adequately protected from fire. There is now the sum of \$6,000,000 set up in building plans for new buildings. The adoption of this ordinance would mean that we must

I See by Today's
"Times" Want Ads—

That kodak finisher is wanted to take full charge of laboratory.

That grocery and market is for sale 60c on the dollar. No competition.

That beautiful 6-room bungalow, worth \$65, is for rent at \$45.

That drug store is for sale on account of dissolving partnership.

That cigar stand is for sale cheap to quick buyer.

discard these plans and draw others at a great expense. Under the budget of the bond issue of three years ago we have promised the citizens a certain number of school buildings. Under this ordinance, with the increased expense, we would not be able to provide all these buildings with the result that citizens would be without the buildings they are paying for, and the children would lack schools.

Her statements were corroborated by C. E. Peck and Robert Burns, members of the board, architects, contractors and engineers.

Aged Man Dies as Auto Knocks Down Archway
I. H. Solomon, 81 years of age, of 1850 West One Hundred and Sixth street, was killed yesterday when portions of an arch over an automobile driveway struck by a backing car, hit him on the head and crushed his skull.
The car that smashed the arch was a light truck driven by Joe Wilson, 3013 Ashbury street, according to the report of Deputy Sheriff Sanford and Peters.
Solomon's body was taken to the county morgue.

YOUNG LAWYERS
HEAR OF PERILSAddress on Justice Made at
Admission ExercisesSpeaker Warns of Trickery
and Exorbitant FeesClass of 123 Granted Rights
to Practice in State

Illustration on Picture Page
Exhorting attorneys who stoop to dishonesty and trickery and urging a high standard of ethics among members of the legal profession, E. W. Britt, attorney and former State Supreme Court Commissioner, yesterday delivered an address on "Justice," when the largest class of applicants in the history of the Second District Court of Appeals was admitted to practice by Presiding Justice Finlayson of Division Two.

"Justice is the single progressive purpose for the existence of man, and the administration of this justice of human duty to which attorneys as a class are called is the greatest estate man can gain," he told the class.

ATTORNEY'S DUTY
"The advance of justice, a social, political and human purpose, above everything else, is the duty of every attorney. The legal profession is dedicated to justice."

That every man who enters the practice of law solely for his own material gain has missed his calling and that those who conduct themselves unethically are the most sordid persons in the world, were declarations of the speaker.

He urged the new attorneys to be true to their country, clients and themselves and by the exercise of the virtues of good conduct and character promote the public welfare. Advising them to get reasonable value for their services, Mr. Britt warned the class members to avoid overcharges and extortion.

Among the class of 123 were eight modern football stars, George A. Dockweiler, the fourth son of the late Dockweiler, to be admitted in the local court, and a husband and wife who studied law together.

EIGHT WOMEN
The eight women admitted to practice are: Mrs. Bertha K. Rapaport, Miss Alice Hall, Miss Elizabeth Siegel, Miss Audrey Zeman, Miss Jeanette Crop, Miss Helene Lucy, Miss Jennie Hamilton and Mrs. Albert R. Beiford.

Mrs. Beiford's name appears on the registry of attorneys just before that of her husband, who also was admitted yesterday. She is a school teacher and is a professor of accounting at the University of Southern California.

Miss Zeman was the youngest member of the class, having just become 21 years of age, the minimum age at which attorneys are admitted in this state.

The motion for admission was made by State Bar Examiner Billy, who certified the applicants have the required amount of study and ability. Clerk Lillie administered the oath of office and issued certificates.

GEOLOGY EXPERT TO GIVE LECTURE ON OIL
The California oil industry will be discussed in a lecture on Petroleum Geology this evening at 7 o'clock at Metropolitan college, University of Southern California, in the Transportation Building, Seventh and Los Angeles streets. Allen E. Bodewick, head of the department of geology, will talk on where to dig for oil and where such effort would be fruitless.

George F. Macnider

PIONEER OF
RAILS SAYS
FAREWELL

**Veteran of Thirty-seven
Years Starts Last Trip
Before Retiring**

Thirty-seven years of service as a railway mail clerk were ended yesterday when George F. Macnider, 64 years of age, boarded the Santa Fe train for San Diego on his last trip before retiring.

"I'll miss the friendships and associations I've formed," said Mr. Macnider, "but not the work—that's getting too heavy for me. But I'll be lost with nothing to do, and I expect to get into some other line of business in San Diego, where I live."

Macnider for ten years was on the tenth division in the East and for the last twenty-seven years has been on the run between Los Angeles and San Diego. During the whole time he has never been in a wreck or had a mail robbery, and while on duty he was presented with a watch, chain and the charm of his lodge by the railway postal clerks, and a gold fountain pen by the registry division of the postoffice.

Children Will be Featured in W.C.T.U. Event

Young people will have a prominent part in the fifty-second national convention of the W.C.T.U. here the 25th inst. to October 2, 1934. The convention, which is being held at the Hotel Biltmore, will be attended by more than 400,000 persons of high-school and college age, will be presented at the convention, and another feature will be a pageant by 1200 children and youths given an interpretation of a recent statement by President Coolidge, "Every child should be taught reverence for nature, reverence for law and reverence for God."

Former Gov. Neff of Texas will be a pre-convention speaker, giving an address Sunday evening. A patriotic inst. Among other speakers scheduled for the sessions are Gov. Richardson, Mayor Cryer, Capt. Richmond P. Hobson, Mrs. Eva G. Wheeler, president of the Southern California W.C.T.U.; Senora Ernestina Alvarado, president of the Mexican W.C.T.U.; Miss Anna Gordon, president of the World's W.C.T.U.; Mrs. Margaret C. Munn, treasurer of the world organization; Dr. Valeria B. Parker, president of the National Council of Women; Mrs. Mary Harris Brown of Georgia and W. W. Peck, secretary of the Prohibition Federation of Canada.

The central feature of the W.C.T.U. exhibit at the Philadelphia exposition at Philadelphia, will be on display at the convention. It will show twenty departments of W.C.T.U. work.

TIME SPENT IN JAIL
SHORTENS SENTENCE

Because she had already spent twenty-three days in the County Jail, a sentence of only seven days was imposed yesterday on Gene Anderson by Municipal Judge Scott. She was charged with defrauding an innkeeper. After stopping three days at the Ambassador, it was testified, she moved out without paying her bill and disappeared. Search for her ended when she was discovered she had been lodged in jail to face a bad check charge.

SON ATTACKS WILL

Legacy for Aged Women's Home Asserted Law Violation

A contest of the will of Laura E. Hubbell to block her attempt to endow a home for aged women with her \$10,000 estate has been filed by her son, Chauncey E. Hubbell. Her will directed that her estate be placed in trust to provide an income for Hubbell during life and that at his death the fund be turned over to the Santa Monica Bay Women's Club to establish a home. Hubbell contends the California law prohibiting a bequest of more than one-third of an estate for charitable purposes is violated by the will.

CONTROL URGED
OF STREET USEPlan Advocated as Means of
Aiding TrafficDecentralization of Trade
Laid to CongestionApplication of Business
Methods Proposed

A commission with power to say how the streets should be used so as to result in the greatest economic advantage to the city, was suggested as a possible solution of the traffic problem of the downtown district in an address delivered by George B. Anderson of the Los Angeles Railway Company at a luncheon of the Los Angeles Commercial Board given at the Chamber of Commerce building yesterday.

The meeting was the first of a series to be given by the board. It was announced by the chairman, E. M. Body. At each meeting some question of interest will be discussed, the subject of yesterday's meeting being the traffic problem. The meeting was attended by 100 members of the board, as well as several city and county officials, leading business men and others.

BUILDINGS FOR PARKING
Another aid to the regulation of traffic was suggested by H. C. Leitch, manager of the Central Auto Terminal, a private organization whose project it is to erect co-operatively owned and operated buildings for parking cars, located in the downtown district.

Before introducing the speakers, Chairman Body stressed the necessity for early action in the control of traffic, pointing out that already the reduction in downtown realty values is threatened because the congestion has a tendency to the decentralization of business.

Mr. Anderson dwelt on the necessity for control of street uses, calling attention to the fact that with the introduction of the automobile a new economic principle has been established relative to the use of the streets.

NEED BUSINESS CONTROL
"This is the principle of economic value derived from scarcity," said Mr. Anderson, "and its exemplification is seen in the gradual change in the economic status of natural resources, like land and water. As population increases a careful political disposition of these resources has to be set up and in the same way the streets will have to be subjected to political disposition and control in a manner as present almost unthought of."

In discussing this part of his subject, the speaker pointed out that it should be as easy to apply sound business principles to the use of the streets as it is to employ such principles in merchandising, banking or other lines of business, adding that until such application is made the problem will not be solved.

"The building of new street-car lines and subways and the widening of streets and the like will not solve the problem," he declared. "Without regulation this only means congestion over a wider area. The correct method, in my judgment, is more intensive use of such thoroughfares as already exist, so regulated as to take care of all elements of the street-traffic problem, the control of their importance. To exercise such control, I believe a commission, probably appointed by the Governor, would be most efficacious."

Southern Branch Welcomes Many Former Students

Increase in enrollment at the University of California, Southern Branch, will be among old students this year rather than among freshmen, declares a statement issued from the recorder's office.

Saturday's registration of first-year students numbered but 1800 which is only a slight increase over the first-day entrance last year.

Registration yesterday disclosed the fact that a large number have returned after absence of one or two semesters. Beginning today both old and new students may register.

With the beginning of classes today the Sophomore Vigilante Committee, headed by Maj. Wheeler, will cease its entire assistance to freshmen and concentrate on initiating the innocents into the intricacies of campus life.

A dip in the time honored fashion is one of the thrills.

Many Students
Seek Work of
Alumni Bureau

Although it has only been functioning three days, the new alumni bureau of occupations at the University of California, Southern Branch, has received 100 applications for work from students at the university.

The bureau was established under the direction of Fred Moyer Jordan, assisted by Margaret McCone, for the purpose of providing work for men students who are supporting themselves while going to college.

Mrs. Leslie W. Ganyard, manager of the work on the Berkeley campus, is in Los Angeles to assist in the organization.

Jobs of every sort are being sought by the students. Men not living at home work for room and board, assisting in the house, garden or chauffeur. Those living at home have registered for jobs ranging from technical and professional work to manual labor.

Peak in Realty
Brokers' Permits
Seen This Year

The number of licensed real-estate brokers and salesmen in California this year will be the highest in the history of the State, it was predicted yesterday by Real Estate Commissioner Gabbert upon his return from a trip to San Francisco and Sacramento.

PLEA FOR LENIENCY
SOFTENS SENTENCE

Plea for leniency by his mother and Attorney Vernon Hamilton resulted in Stanley Abernathy being somewhat better yesterday than his two companions who already had been sentenced to ten years to life on robbery charges. The three were accused of holding up petting parties in automobiles. Leniency was urged for Abernathy on the ground of his youth. Judge Burnell gave him a sentence of five years to life.

WIFE ASKS POLICE
TO FIND HUSBAND

Police yesterday were asked to take up the search for Gabriel Solderella, 25 years of age, a baker, who vanished August 23, last, in his car while presumably looking for work. His wife, living at 2324 Enterprise street, informed Detective Lieutenant Allen, head of the police missing-persons detail, that their 8-month-old baby had succumbed to illness and requested that every effort be made to locate her husband.

SEND FOR A FREE SAMPLE OF THE TOOTH PASTE MOST MEN AND WOMEN ARE USING

Waking up a tired stream, with the fish biting—that's happiness enough for a fisherman and a sportsman. With the flash of a smile, he casts, and plays, and finally lands—the fish of the season.

Now... four senses say
CLEAN

The cleansing foam of this modern dentifrice brings a new cleanness you can taste and feel

AFTER using this cleansing dentifrice, four senses tell you that your teeth are clean—your mouth pure—your breath wholesome. The touch of your tongue against the back of your teeth, the feel of your lips against the front of your teeth, a glance in the mirror—all leave a brisk consciousness of being clean. Brushed in moisture, Colgate's expands into a delicious snow-white foam. It washes thoroughly. It washes clean. Because of utter cleanness, the causes of tooth decay are removed.

Physicians and dentists give no drugs to well people. They frown on self-medication. "Complete cleanliness," says science, "and you need not fear imaginary ills of teeth or gums." Colgate's contains nothing to appeal to the dentally ignorant or the glib. It cleans, and cleans *efficiently*. That is all any normal, healthy mouth needs or wants.

SOCIETY

BY JUANA NEAL LEVY
Mrs. Charles W. Hinchcliff of 817 South Bonnie Bree avenue is planning a delightful visit in the North, leaving today accompanied by Mrs. Owen Humphrey Churchill of South Figueroa street for San Francisco. Mrs. Hinchcliff is planning to remain for at least a month in the North, visiting with friends and relatives while Mrs. Churchill's plans are indefinite. They are planning to be in San Francisco in time to attend the wonderful birthday anniversary reception which is given each year by Mrs. Hinchcliff's cousin, Mrs. C. W. Clarke at her beautiful home, 2 Presidio Terrace, and the affair this year, Thursday, the 16th inst., will celebrate her eighty-fifth birthday anniversary. Mrs. Clarke who is one of the pillars of the northern city, will be assisted by her four daughters, Mrs. M. C. Porter, Mrs. Augustus Buchanan, Mrs. Stuart Baldwin and Mrs. J. B. Wright and by Mrs. Hinchcliff. Mrs. Hinchcliff has been hostess at numerous delightful affairs this summer given in honor of her niece and nephew, Mr. and Mrs. Edward Meister, Mrs. Cyril Neusterman and Miss Marion Ogilvie of St. Louis, who have been visiting in Southern California for more than two months and also for her son, Charles W. Hinchcliff, Jr., who recently returned to his home in Tucson, Ariz. The eastern visitors returned home several days ago.

Home Again
Miss Fannie M. Kerns and Miss Eva Korns of 816 Grattan street returned Saturday from a delightful three

months' trip abroad. They left Los Angeles June 10, and visited in France, Spain, Italy, Belgium, Switzerland, Germany, Austria and Holland before crossing the channel into England and the British Isles.

Wedding Announced
Formal announcement is made of the wedding of Miss Wanda Henderson, daughter of Senator and Mrs. A. S. Henderson of Las Vegas, Nev., to Ross Schurman Parrow, son of Mr. and Mrs. J. S. Parrow of Los Angeles, the ceremony taking place in Las Vegas the 7th inst.

Bridge Dinner
One of the lovely affairs of recent date was the dinner and bridge party with which Mr. and Mrs. James H. Woods entertained Tuesday evening the 7th inst., all their guests, 1508 Crescent Boulevard, the occasion celebrating their wedding anniversary. Mrs. Woods was assisted by her daughter, Mrs. Stafford H. Dunlap, who has but recently returned from an extended visit with friends in Michigan and Colorado. Those included were Dr. and Mrs. Edwin McKillop, Mr. and Mrs. David C. Wilson, Mr. and Mrs. John C. Woods, Mr. and Mrs. A. A. Wilson, Mr. and Mrs. Berzley Moss, Mr. and Mrs. Stafford Dunlap and the hosts.

Eastern Trip
Mrs. Dustin Thompson left several days ago for an extended trip through the East. She will stop en route in St. Louis, Mo., and later will be the guest of Col. and Mrs. John H. Street of Buffalo, N. Y. Mrs. Thompson Pratt of New York City.

Luncheon-Bridge
Mrs. John J. Craig was the guest

UNIVERSITY COUPLE MARRIED

Pair Will Make Their Home in Ontario

Mrs. George Burden Ford

The marriage of Miss Vera Helen Jackson, attractive daughter of Mr. and Mrs. Perry Jackson of Covina, to George Burden Ford was one of the events of recent date, taking place at the home of Mr. Ford's parents, Mr. and Mrs. J. J. Ford, 224 East Pasadena avenue, Pomona, Cal.

Miss Jackson, who is a member of the Alpha Sigma Delta society, while Mr. Ford's alma mater is the same university and he is affiliated with the Alpha Sigma Phi fraternity. After their return from the wedding trip Mr. and Mrs. Ford will make their home in Ontario.

Chest Church Co-operation Groups to Meet
A meeting of the church co-operation committee of the Community Chest, governing body of the religious educational work of the chest organization, was held Tuesday night at 8 o'clock at the Chest Church, 1000 North Main street, for the purpose of planning for the coming year's work.

The meeting was held in preparation for laying plans for a definite program of educational work by the city's religious agencies for the forthcoming year. The meeting was held in the form of a social luncheon gathering at campaign headquarters, 811 South Grand avenue.

Later a general ministerial meeting will be held with J. G. Warren, chairman of the church co-operation committee, presiding. On Warren's staff and at the meeting Thursday will be Rev. Robert H. Lucy, Rev. A. T. Quillen, Rev. William B. Stewart, S. Stevens, Rabbi Edgar Magnin, Dr. W. H. McCulloch, Rev. S. M. Donald, Dr. George F. Kanger, Rev. W. F. Harper, Rev. C. B. Sullivan, George Gleason, Rabbi S. M. Neches, Louis Nordlinger and P. H. O'Neill.

Diet and Health
By Lulu Hunt Folson
Author of Diet and Health and Diet and Health for Children

SHINGLES (HERPES ZOSTER)
Shingles is a very painful affliction, from what those who write to me say about it.

The technical name for shingles is Herpes Zoster, and it is a skin eruption forming over the skin nerves, especially on the chest and trunk (most often on the right side). It may occur in single patches, also. It is a similar eruption to the so-called cold or fever sores on the face (herpes facialis) around the mouth.

The condition occurs more often in children than in adults, and it seems to be more or less epidemic so that it is thought to be an infection and not unlike chicken-pox. Occasionally it will arise from some injury to the nerves.

The duration of the disease is from ten days to three or four weeks. Occasionally it is accompanied by fever. As I told you in yesterday's paper, in any case of infection there is most always a lowering of resistance so that the germs have not been destroyed by the protective forces of the body. There is nothing which has to do more with the resistance than the diet. Those who are overweight and are affected with shingles undoubtedly have been taking resistance to their overeating, with a relative lessening of the vitamins and mineral elements by too much sweet and starchy food. Those who are underweight and are underweight are undoubtedly underweight with an absolute lack of vitamins, mineral elements and all the other elements necessary for health.

So look to your diet! Probably an exclusive milk diet for a few days will be beneficial. Those who are underweight should take three or four quarts during the day (one quart is approximately 640 calories). Those who are overweight better take the skin milk diet (300 calories per quart)—taking about two quarts daily; or, if preferred, an exclusive orange juice diet (a glassful, or eight ounces, 100 calories), or the orange juice and milk may be taken alternately during the day, for both types to prevent constipation, it would

RAVIOLE
Make a paste of two cups of flour, two eggs, one-half teaspoon of salt and water enough to make a stiff dough. Knead well and roll out on a floured surface as thin as a wafer. Cut in half and proceed as follows: Place one teaspoonful of force in regular rows on the paste two inches apart. Moisten the upper part of the paste and place carefully on top of the lower place, pressing the two together with the fingers or with a ravioli rolling pin, forming small cushions between. Cut through the rows down and across with a pastry knife in such a way as to leave pieces about two inches square. Place the ravioli on a board covered with a clean piece of muslin, in clear double rows. Moisten the top and dry thoroughly. When needed poach them, a few at a time, in clear boiling water. When all are done place in a tureen and pour the soup over the ravioli; add a few spoons of grated Parmesan cheese and serve.

PARM. FOR RAVIOLE
Take one cupful of cold chicken, veal or fish, chop very fine and rub to a paste, with one egg or two. Add a little bread crumbs which have been soaked in milk and then squeezed dry, one teaspoonful of onion juice, one-half teaspoonful of salt, a grating of nutmeg, dash of cayenne and thyme, and rub well together. Have

ready one cupful of spinach, which has been boiled, drained and chopped; stir the spinach into the paste, add the yolk of two eggs, beat for two minutes.

PIMIENTO BISQUE
Boil six large sweet red peppers until tender. Remove skin and seeds and rub through a colander with a few spoonfuls of the water in which they were boiled. Boil one-half cupful of rice in three places of white rice, or milk in double boiler until perfectly soft and then rub through a sieve. Add the pepper pulp, one teaspoonful of onion juice, one teaspoonful of salt, and season highly with Tabasco sauce. Bring to a boil, remove from stove, and stir in slowly one-half cupful of thick cream, mixed with the yolk of two eggs. Serve with crostons, if fresh peppers are out of season.

CHICKEN PORTUGUESE
Into the bottom of a casserole put a piece of pork rind. On this stand a tender roasted chicken, trussed; add four ounces of butter, salt and cayenne to taste, and a few drops of kitchen bouquet. Then add the following vegetables, chopped fine: Two onions, two young carrots, one-half head of celery, two chilies, two bell peppers, seeds removed, and one cupful of soup stock. Cover the casserole and cook quickly for forty minutes. From time to time baste the chicken with a spoon of the gravy; then add two tomatoes, skinned and sliced, and cook for thirty minutes more. Serve in the casserole.

LALLA ROOKH
Whip the whites of five eggs to a stiff froth; add one pint of thick cream; beat the yolks of the eggs very light, and stir in one cupful of fine sugar, the juice of two lemons, and one cupful of orange juice. When very light and frothy, fold in the cream and then the beaten whites of the eggs; pour into a mold, cover tightly, pack in butter, with ice and salt, four hours before serving. The juice of any berry or fruit may be substituted for the orange.

MAIL PLANE
LINE READY TO FUNCTION

Aircraft Start Tonight for Service Between Here and Northern Cities

With test flights over the new air mail route between Los Angeles and Seattle successfully completed yesterday, the first regular mail-carrying planes of the Pacific Air Transport Company will take off at midnight tonight from both ends of the route.

The northbound plane will hop off from the Ryan Airport at Angeles Mesa Drive and Exposition Boulevard. It will be piloted by George W. Allen, according to A. L. Mudgett, superintendent of the southern division of the mail-carrying company.

Yesterday's test flights were completed over the entire route with success as to schedules and flying conditions. The ten regular planes to be used by the company were given their final tests for the regular mail flights and the planes were enabled to test the schedules under regular mail-carrying conditions.

The schedule calls for twelve hours for southbound planes and thirteen hours for northbound planes and Seattle. The difference in time is caused by winds encountered in the north leg. Scheduled stops have been set at Fresno, San Francisco, Portland and Seattle. Two planes and pilots will be stationed at each landing field. The flyers will start north and south at midnight.

Alumnus Meeting
Holding their first fall meeting at the home of their president, Mrs. Elaine Gibson, at 181 Madison avenue, the Ward-Belmont alumnae will meet socially tomorrow afternoon to play bridge.

DRIVER HELD FOR WRIGHT ACT CHARGE
Mud-Splattered Plates on Truck Bring Grief to Assembled Run Runners

Mud-splattered license plates yesterday brought plenty of grief to Clint L. Farquhar, 25 years of age, truck driver, who lives at 845 East J street, Ontario, according to a letter found on his person. He is in the City Jail facing a charge of Violated Act violation, possession and transporting liquor and suspicion of grand larceny, all because Officers Farrant and Redican stopped him to suggest he clean up his license plates.

When the officers halted him on Alameda avenue as he was passing under the Pacific Electric viaduct, they recommended that Farquhar brush up the plates and then casually inspected his cargo. They report finding it comprised 125 five-gallon cans of suspiciously smelling liquid. Farquhar told the police he had been employed by a man unknown to him to drive the truck to Ninth and Los Angeles streets, then to turn it over to another driver. His ultimate destination he didn't know, he said.

STATE CORPORATION COMMISSIONER HERE
No changes will be made in the policy of the State Corporation Department, it was announced here yesterday by Clifford J. MacMillan, recently appointed commissioner, when he arrived for a short visit to familiarize himself with the details of the local office. Mr. MacMillan had charge of the San Francisco office for several years prior to the recent resignation of Commissioner Daugherty. After holding a conference yesterday with former Commissioner Daugherty, the new commissioner said that he will spend one-half of his time in the local office. He will leave Los Angeles tonight and return next Monday to spend three weeks here.

BRIDGE PLAYERS IN FIRST LESSON

Authority on Game Addresses Fans at Bullock's

Initial Lesson Deals With Bidding Principles

Value of Trick Takers Told; Questions Answered

Robert Frederick Foster, world authority on auction bridge, addressed a capacity audience at Bullock's yesterday afternoon, where he gave the first of a series of bridge conferences.

Mr. Foster's teachings are based on the principle of averages. His system is one that, while it may lose in many instances, will win in the long run. His aim is not so much to call the pupils' attention to winning as to the method of avoiding loss, directing attention to situations that arise in nearly every hand played.

Mr. Foster's opening lecture yesterday was chiefly devoted to an explanation of the fundamental principles of sound bidding, and the foundations upon which it rests. After explaining how the distribution of the four suits in the hand of the dealer, or first bidder, affects the choice between a suit bid and no-trumps, he explained why a player who held more than his probable share of the high, or trick-winning cards, in the pack, should not hesitate to bid something, if only to start things and show that he is in the running when it comes to bidding.

After showing what more than a share of the high cards would be, he discussed their probable value as trick-takers when it should come to the play of the hand. This he called the "double-valuation system," which is based on the principle that the dealer has in playing the dummy. As an illustration of this he asked the audience to deal out and play the following hand:

DEALER: S K Q J 10 9 8 7 6 5 4 3 2 A
WEST: S K Q J 10 9 8 7 6 5 4 3 2 A
EAST: S K Q J 10 9 8 7 6 5 4 3 2 A

After pointing out that these four hands are exactly equal in every respect, not only as to the high cards held at the top of each suit, but in holding one of each card from the ace and king down to the deuce, he asked them to consider "W" as the dealer and suppose that he bid one no-trump and that "W" led either the jack or the deuce of diamonds for the first trick.

After letting the audience play the hand their own way, he went over the hand as it should be played, with the result that no matter what the E and W players did after the opening lead, the declarer, S, must win eight tricks out of the thirteen, and might win nine, although the cards in each hand were exactly equal, both as to size and distribution.

The audience was then asked to deal and play another hand, which the manner of building up a bid between partners was illustrated, showing how the limit of safety could be determined. Beyond that point, Mr. Foster said, the player enters the realm of poker bridge, of judgment of advantage, of bluff and of calculating probable loss and gain.

MATTER OF BLUFFING
In a third hand which was played by the audience, the manner in which the declarer must foresee just what tricks he must win to cover his contract, what more he may win to go gains, and how he is going to get them, was shown. The declarer was to bid and the audience was to play. If there had been any bluffing in the bidding, the hand had to be played as it was, at all bluffs in bridge are called when the bluffer is left in.

This afternoon at 8:30 Mr. Foster takes up the methods used by the dealer's partner in assisting him or her.

R. F. FOSTER
The famous bridge expert lectures daily this week at Bullock's. Hear him speak and get his book.

FOSTER'S BRIDGE TACTICS
Covers fully the new rules and their applications to play and the most readable of all the bridge manuals.

Hurled 25 Stories to Cement —Picked Up Unbroken

Traffic stopped to watch this test of the

Parker Duofold Non-Breakable Barrel

Such Proof is a Better Guarantee Than Any Maker Can Give You

YES, traffic stopped as big Frank Ketcheson, Supt. of Steel Construction for the George A. Fuller Co., hurled two Parker Duofold Pens from his perilous foothold on a slender steel girder of the new Stevens Hotel, Chicago.

One pen struck on asphalt, the other on cement—away they bounded into the air, then landed in the street—unbroken!

We wanted to give the public proof more convincing than any guarantee. So we have shown by a series of heroic tests that the new Parker Duofold Pens with Permatip barrels do not break.

Get this sturdy black-tipped lacquer-red beauty at any good pen counter. Point guaranteed 25 years for wear and mechanical perfection. But look with care for the stamp of the genuine "Geo. S. Parker." And carry the pen that all the world respects.

Parker Duofold Pens to match the Pen: Lady Duofold, 50 Over-size J. 42.50 "Big Brother" Over-size, 50. The Parker Pen Company, Lancaster, Wisconsin. Sales and Service Station: 214 Grand Blvd., Sixth and Spring, Los Angeles. Phone TUCKER 3532.

"Permatip"—the new Non-Breakable Material of which all Parker Pens and Pencils are now made—is lustrous, lightweight, and does not break, fade or shrink.

IMPROVEMENT RECOMMENDED
City Engineer Shaw yesterday recommended to the City Council the improvement of Corinth avenue between Santa Monica Boulevard and Pico Boulevard. This street formerly was known as One Hundred and Fifth avenue.

Lucky Curve Pen and 14 Year Point Duofold Jr. \$3 Lady Duofold \$3

Where the pens landed

The new Stevens Hotel—built at a cost of about \$1,000,000.

Do You Ever--

Take your family for a Sunday drive, or entertain eastern friends with a little auto trip?

If so, where do you go and what do you show them? Do you pick out a route haphazard, and spin past a hundred sights they would like to know about?

You need—

Charles H. Owen's Fact-Telling Picture--Map of Los Angeles Metropolitan Area

It takes the blindfold off the eyes and tells in a glance the kind of country you will travel over, the towns and cities you will pass through, the principal objects of interest to watch for.

To make this map useful and permanent for motorists and daily use in homes and offices, it has been re-engraved, printed in black, non-fading ink on special map paper, and folded into a convenient size. Send for it today.

Mailed postage prepaid anywhere on receipt of 25c.

CHAMPS IN FILM ACTION

The Lenglen and the Grange With F. B. O.; Lillian Gish
in Tolstoy Play; Talmadge Home Soon

BY GRACE KINGSLEY

Now that F.B.O. and Edwin King
have signed up a whole celebrities'
gallery of famous athletic champions,
naturally, every-
body is wonder-
ing what these
noted pill swal-
lers and pigskin
gamblers are go-
ing to do for the
entertainment of
the fans.

So it is with
pleasure I broad-
cast the infor-
mation regarding
the activities of
at least two of
these champs.
Susanne Lenglen,
tennis champion,
coming to this
city at the end of her exhibition tour,
and will play in a picture to be be-
gun early in November. Naturally
Byron Morgan is going to write the
story. Sam Wood will direct. Miss
Lenglen will appear in only one pic-
ture.

Red Grange, whose celluloid dou-
ble is disporting itself with such suc-
cess at the Million Dollar, is to come
back to California and make three
pictures following the completion of
the football season in the Christmas
holidays and a month's trip to France,
where he will show the pigskin push-
ers what football really means to an
earnest young nation like ours. This
will bring his picture engagement
along in February.

Lillian Gish's Classic Subject

Whether Lillian Gish has a rab-
bit's foot that brings her unusual
good luck, the fact remains that
she is a classic subject. She is con-
tinuing to be
chosen for her
roles.

Now it is "An-
na Karenina," by
Count Leo Tol-
stoy, which is to
be translated to
the screen as a
starring vehicle
for Miss Gish, ac-
cording to the an-
nouncement made
yesterday by
Ivory G. Thal-
berg, associ-
ate executive of
Metro-Goldwyn-
Mayer studios.

who believes this great Russian
drama will give Miss Gish the greatest
acting opportunity of her long career
as a motion-picture artist.

Mrs. Fred De Grasse, relative of
Henri Murger and author of the
screen story of Murger's "La Boheme,"
has been assigned by M.-G.-M. to
write the screen story. This picture
will follow "Wind," to be directed by
Clarence Brown.

"Anna Karenina," as everybody
knows, is one of the best-known lit-
erary masterpieces of the age.

No announcement has been made
as to who will direct Miss Gish, nor
who will appear with her as leading
man.

Schenck Returns Soon

Joseph Schenck and Norma Tal-
madge are returning to Hollywood on
the 26th inst., according to a wire
received yesterday from Schenck.

Miss Talmadge is not at all cer-
tain what she will do next for the
screen, although "Camille" is still a
strong possibility.

Constance Talmadge and her hus-
band, Capt. William Astaire MacIn-
toch, are in New York, but are to
return home a week or two later than
Schenck and his wife, wishing, quite
naturally, to be present at the Demp-
sey-Tunney fight. Miss Talmadge has
no story picked out as her next ve-
hicle.

It is known that such was the fas-
cinating influence exerted by Con-
stance over the Scots, during her
visit to her husband's people over
there, that a whole bunch of Edin-
burghites bestowed on her a silver
loving cup. However, as Harry Brand
states, while they were willing to go
that far, they made her fill up the
cup herself!

Fair Ones For Herbolt

As it runs out, Jean Herbolt is
to take on two leading ladies for
"The Wrong Mr. Wright," which in
his big-headed
ness shows he
can't be a
wrong.

Enid Bennett is a
d d Dorothy
dancers, the
leading ladies
in question. Miss
Bennett is noted
not only as be-
ing the wife of
Fred Miblo, but
for a succession
of excellent
screen portrayals,
while Miss Devore
has so long ago
stepped out of comedy.

Pat Rooney With Roach

Stage stars are good enough for
Hal Roach, says he, and so it is
with something of pride that Mr.
Roach announces that he has signed
up Pat Rooney to go in a picture just
as soon as ever Rooney completes his
present vaudeville tour, probably
within a few months at least.

Rooney is famous in both musical
comedy and vaudeville, being a mem-
ber of the noted Rooney family of
dancers, the descendant of Pat
Rooney I and Pat Rooney II, who
went before to pave the way for his
own fancy stepping.

Looking for McKinley

Having had such wonderful success
in finding a man to play the role
of Theodore Roosevelt in "The Rough
Riders," it is no wonder that Para-
mount feels all heartily up to be-
lieve they will be equally successful
in finding a man to play William
McKinley in the same picture.

Indeed, if you ask them, they will
hold back nothing in letting you in
on the fact that they have been
searching for weeks for an actor to
play the part. Or if it is impossible
to find an experienced player, they
are willing to take some one of no
experience, just so he resemble the
late ex-President.

Critics Steps Over Fence

B. F. Schullberg evidently believes
that Ted Shane, motion-picture critic
of Life, knows what he is talking
about. Wherefore, the Lasky official
has signed the critic as member of
the Paramount writing staff.

Told-You-So No More

As seen in the gaudy crystal em-
ployed by this department one day
last week and duly reported, James
Craig, the colored actor, who dis-
tinguished himself in "The Emperor
Jones" when the Potboilers put on
the play here, has been signed to
play the role of Uncle Tom in
"Uncle Tom's Cabin," which Harry
Pollard is directing for Universal.

Langdon's Frisky Title

In the struggle for good titles,
First National and Harry Langdon

have brought forth as the title of
the comedian's next picture, "The
Babbit-ridiculing name of 'Long
panta.' Frank Capra is directing.
Thus far only two of the support-
ing cast have been chosen. They are
Clayton Brockwell and Al Hodge.

Milton Sills, High-Brow

As seems eminently fitting, Milton
Sills, who was, you may remember,
formerly a college professor, has been
elected president of the recently or-
ganized Hollywood Film Guild.

That makes a full quota of officers
for the new Little Theater movement
of the film. F. Schullberg is
vice-president, Madeline Brandeis is
secretary, M. S. Palmer, of the Hol-
lywood First National Bank is treas-
urer, and chairman of committees
are Harold Bucquet, Henry Herbrun
and James F. J. Archibald.

Sills will preside at the first show-
ing of a guild subject, King Vidor's
"The Jack Knife Man," which is to
be presented at the Hollywood
Chamber of Commerce Auditorium on
the 26th inst.

You may therefore have a chance,
as you readily see, to see your-
self with the high-brows of the low-
brows on that date. Either you stick
around outside the Auditorium and
listen to the championly night ve-
tures, or you take a stand definitely
with the high-brows by attending the
Vidor opera.

Tom Moore Is It

Laura La Plante feels that she
doesn't wait another minute before
stepping right in to show just how
dangerous widows
can be, her lead-
ing man for "Be-
ware of Widows"
having been
chosen. He is no
less pleasing an
actor than Tom
Moore.

Jane Winston
will also support
Miss La Plante
in the latter's
latest Universal
starring vehicle.
Warner Oland is
the only other
member of the
cast so far
chosen.

Drama Museum
May be Founded
in Art Theater

If L. E. Behrmer, William Farnum,
R. D. MacLean and others have their
way a museum of the drama will be
created in connection with The Art
Theater of Hollywood, to erect which
the production of "Julius Caesar,"
is to be staged in Hollywood Bowl,
Friday and Saturday nights.

The idea originated with Mr. Behr-
mer who for nearly a generation has
been a collector of interesting things
appertaining to the stage, stage folk
and famous productions of the stage.

So far as Mr. Behrmer is able to
ascertain only two museums of the
drama, as such, exist in all the world
--- the Shakespearean collection at
Stratford-on-Avon and another at La
Scala Theater in Milan, Italy.

These men believe that the Holly-
wood Art Theater would be the logi-
cal place for such a museum, because
of the great colony of actor folk re-
siding there, who number among their
possessions many rare relics and ob-
jects of interest, which they would
doubtless be glad to loan to such a
museum.

Mr. Behrmer has signified his will-
ingness to found the museum with the
loan of his own personal collection,
and William Farnum and R. D.
MacLean also stand ready to con-
tribute many interesting relics from
their treasuries.

One of Mr. Farnum's most pre-
cious relics is the cloak which the
American tragedian, Edwin Forrest,
always wore when he played the role
of Othello. Another is the prompt
book of the play, "Rappanoo," the
Gladiator, also formerly the property
of Forrest and bearing his notes.

Another Farnum treasure is Edwin
Booth's prompt book of "Hamlet,"
and he also has scores of relics in-
herited from other notables of the
stage, including costumes, books, ar-
mor, swords, etc.

At 18, Miss Coyne won the favor of
Pavlova. Miss Coyne was in the bal-
let school of the Metropolitan Opera
Company in New York when there
occurred a vacancy in the corps de
ballet supporting Pavlova. Every
girl in the school was given an op-
portunity to appear before the Rus-
sian dancer, and from an avalanche
of contestants she selected Miss
Coyne, who, on account of her dimi-
nutive size and appealing beauty, was
known as the "Ballet Baby."

Mr. French, a Spaniard, has played
in musical comedies and other pro-
ductions throughout Central Europe
and England. He started his the-
atrical career in this country as a
rough rider for the old Vitagraph
Moving Picture Company in the days
of John Bunny. Mr. French is also a
dancer, as well as a singer.

Fox Story of
Pioneer West
Draws Crowds

Opening in a blaze of glory on
Friday evening William Fox's new
western picture "Three Bad Men" has
been doing a land office business ever
since.

The cast is headed by George
O'Brien, Olive Borden, Tom Santschi,
Frank Campbell, J. Farrell MacDon-
ald, Lou Tellegen, Grace Gordon, Priscilla
Bonner, Phyllis Haver, George Harris,
Alice B. Francis, Otis Harlan, Walter
Perley and George Irving.

Scenes of great beauty were filmed
in the heart of the Jackson Hole
country of Wyoming.

And above all it is said to be his-
torically correct and staged with
fidelity.

Director King Baggot left for Chi-
cago yesterday to film the race track
scenes for his Universal production
"Down the Stretch" at the new mil-
lion dollar track recently opened at
Aurora, Ill.

The track located just outside
Chicago is one of the finest in Ameri-
ca and will be the scene of one of the
most important meets of the season
during the next few weeks.

Baggot was accompanied by a crew
of five camera-men headed by John
Stumar. The mob scenes and long
shots of racing scenes will be re-
corded for "Down the Stretch," a pic-
ture of the Gerald Beaumont
story "The Money Rider." Marian
Wixon and Robert Agnew play the
featured roles in the picture.

HE SPEAKS THEIR LANGUAGE

Bring on Italian and French direc-
tors. John Rocha, for one, will be
ready for them. The actor, being of
French descent, early learned the lan-
guage of La Belle France. Now he
is taking up Italian for his singing. Mr.
Rocha is having his first between pic-
tures following a year of constant
work and after continuous weeks at
one studio alone.

KING BAGGOT WILL FILM
"DOWN THE STRETCH"
IN AURORA

Director King Baggot left for Chi-
cago yesterday to film the race track
scenes for his Universal production
"Down the Stretch" at the new mil-
lion dollar track recently opened at
Aurora, Ill.

The track located just outside
Chicago is one of the finest in Ameri-
ca and will be the scene of one of the
most important meets of the season
during the next few weeks.

Baggot was accompanied by a crew
of five camera-men headed by John
Stumar. The mob scenes and long
shots of racing scenes will be re-
corded for "Down the Stretch," a pic-
ture of the Gerald Beaumont
story "The Money Rider." Marian
Wixon and Robert Agnew play the
featured roles in the picture.

HE SPEAKS THEIR LANGUAGE

Bring on Italian and French direc-
tors. John Rocha, for one, will be
ready for them. The actor, being of
French descent, early learned the lan-
guage of La Belle France. Now he
is taking up Italian for his singing. Mr.
Rocha is having his first between pic-
tures following a year of constant
work and after continuous weeks at
one studio alone.

Securing, for California, the best raisin markets in the world

NATION of a hundred million people — people who want on their tables the best the world can afford — this is America, a score of rich markets in one.

Turkey, Greece, Spain look at it with envious eyes as a place to sell their raisins. And once it was their market. Shiploads of foreign grown raisins came to these shores. But they come no more.

Today all America demands California raisins. Sun-Maids are sold in nearly every grocery store in city, town and village throughout the land: 9 out of every 10 women use Sun-Maids.

And if you should travel across the seas you would find Sun-Maid raisins there—in Europe, Smyrna's traditional market—in China, in New Zealand, next door to Australia's vineyards.

For the California product is unmatched in all the world—Sun-Maid Puffed, seeded raisins that aren't sticky!—Sun-Maid Nectars, seedless raisins with the fragrance, the flavor and plump tenderness of fresh grapes!

You buy Sun-Maid raisins because you find them cleaner, finer than any other kind you know. So do women everywhere.

And that is the reason Sun-Maid holds for California the prized markets of the world—why, too, the demand for these raisins is constantly increasing.

California could not consume the raisins it grows if you and every other person in the state ate two packages every week in the year. Of tremendous economic

importance are the markets Sun-Maid has developed beyond the Sierras, across the seas.

CHEF WYMAN'S ANSWERS

COLD CHICKEN CUTLETS WITH TOMATO JELLY

Scald three-fourths cupful of highly seasoned chicken stock and pour over the slightly beaten yolks of two eggs. Cook over hot water until thickened and add three-fourths cupful of cold cooked breast meat of chicken and one-third cupful of blanched Jordan almonds, both of which have been put through the finest knife of the meat chopper, and then forced through a pure sieve. Season with salt and cayenne and when the mixture begins to jelly add three-fourths cupful of heavy cream beaten stiff. Brush cutlets molds over lightly with olive oil and place in every other one the chicken mixture to fill half the mold. In alternate molds place tomato jelly to fill half the mold. Then place chicken mixture on the tomato jelly and tomato jelly on the chicken mixture and chill. Turn out on serving plate with points meeting in center of

plate and place a bunch of cross where they meet.

ROAST DUCK WITH BROWN ORANGE SAUCE

A. K. Los Angeles: Clean and singe a duck. The difference between cooking a wild duck and a domestic one is this: The wild duck should be cooked very rare; place in the roasting pan before roasting an onion. The domestic duck should be well done: It is very fat and the fat should be thoroughly cooked out. Then, too, dressing is made to stuff domestic duck and a brown gravy made in the pan as with any roast.

Brown orange sauce: A sauce to be used with wild duck or with domestic duck if one prefers it to brown gravy.

COUNTRY CLUB STUFFED EGGS

D. L. Redondo: Remove shells from six hard-boiled eggs and cut them in halves lengthwise. Remove the yolks and mash; also moisten with a small amount of the dressing. Then add three-fourths cupful of finely chopped green pepper, one-half teaspoonful of chopped green pepper, one-half teaspoonful of chives and season with salt, pepper and cayenne. Add dressing until the right consistency is reached. Fill the whites. Sometimes the whites need to be cut out a bit where it is too thick. Fill so that the mixture is level with the top. Garnish with dressing forced through bag and tube, add a sprig or two of cream and place eggs on a bed of chery.

CREAM SALAD DRESSING

Scald one-half cupful of vinegar and pour gradually over four eggs which have been beaten slightly, and mixed with two teaspoonfuls each of salt and mustard, one teaspoonful of sugar, one-half teaspoonful of paprika and a few grains of cayenne. Cook over hot water, stirring constantly. When mixture begins to thicken add half cupful of butter, bit at a time, and when taken from the fire two teaspoonfuls of lemon juice and chill. Before using, add one cupful of heavy cream beaten stiff.

SILVER CAKE WITH PISTACHIO ICING

S. L. Los Angeles: Cream one-fourth cupful of butter, add gradually one-half cupful of sugar, then one-fourth cupful of milk, which has been mixed with one-third teaspoonful of soda, alternately with seven-eighths cupful of sifted flour mixed with three-fourths teaspoonful of cream of tartar and one-fourth teaspoonful of salt. Last, add whites of two eggs stiffly beaten. One teaspoonful of almond extract and one-half teaspoonful of vanilla. Bake in a shallow pan six by six inches.

PISTACHIO ICING

Cover the cake with softened fondant, which has been flavored with almond and colored a light green with color paste; or, if not familiar with the making of fondant, take one tablespoonful of hot water and add confectioner's sugar to make the right consistency to spread. It will take about one cupful of sugar. Color and flavor as for fondant. Over frosting which should be spread very thin, sprinkle chopped pistachio nuts.

NET BREAD

Mix one cupful of graham flour, one-half cupful of white flour, two tablespoonfuls of sugar, three teaspoonfuls of baking powder, one-fourth teaspoonful of salt and one-fourth teaspoonful of soda. Then add two tablespoonfuls of molasses, one cupful of sweet milk and last, one-fourth cupful of water. Beat well and bake in a moderate oven. This amount makes one small loaf baked in a pan two and one-half inches deep by seven by four top measure.

Widows Start Higher Pension Campaign Here

Under the leadership of Mrs. Margaret C. Struble a campaign for higher pensions for widows of Civil War veterans was started yesterday morning in the Hotel Clark lobby. Only widows receiving \$30 are eligible to sign the petition. They are asking \$50 a month. The petition will be sent to Congress in December. The campaign will continue for two or three days longer and is open from 10 to 12 o'clock in the morning and 1 to 3 o'clock in the afternoon. Up to noon yesterday morning eighty-nine widows had been in to sign the petition.

MARRIED MEN AND OLD MAIDS BEST WORKERS

Who are the best office workers? "Married men and old maids," answers Hubert D. Brown, chief of the United States Bureau of Efficiency, from his experience with employees in government offices. "Bachelors and boys, married women and nappers are not so good."

The government, he declares in Popular Science Monthly, has no better employees than married men, probably because they have learned the art of give-and-take from married life.

Wappers, he contends, let their minds wander, think too much of men, stop work to powder their noses, and constantly "frit about." [Exchanges.]

New Trade School Named After Chamber Secretary to be Laid Today

will be laid to the memory of Frank Wiggins, late secretary of the Chamber of Commerce, with the laying of the corner-stone this morning at 10 o'clock. The new school, named after the late secretary, will be a \$1,250,000 project, will be located at the corner of Broadway and Olive streets. The school will be a trade school, and will be under the supervision of the Board of Education. The school will be a trade school, and will be under the supervision of the Board of Education. The school will be a trade school, and will be under the supervision of the Board of Education.

MODEL SCHOOL PLANNED

According to Principal Campion, the new Frank Wiggins School, which is the central unit of what will eventually be a \$1,250,000 project, will include many features heretofore unknown in school construction.

Among the trades to be taught will be plumbing, ornamental iron work, tile work, brick laying, carpentry, plumbing, automobile mechanics, baking, candy making, millinery, dressmaking and beauty culture. Required mathematics and histories of the various trades also are included in the curriculum. Principal Campion explained that the instruction to be given will be basic training for executive positions in manufacturing establishments rather than regular preparation of young men and women for college.

AID GIVEN ART DRAMA PRODUCERS

"Soul of the World" Will be Staged With Assistance of Technical Experts

Technical experts in various lines of stage, screen and art endeavors yesterday enlisted their services to the presentation of a spectacle to be staged in Los Angeles within a few weeks by the Council on International Relations, headed by Dr. Rufus B. von Klein Smid, president of the University of Southern California.

At the same time the support of more than a score of civic, social, educational and religious organizations was committed to the success of the venture, which it is expected will become an annual event in the social and artistic life of Los Angeles.

The production, "Soul of the World: A Festival of Nations," will be given during the first week in November at Polytechnic Auditorium with a cast of more than 400 persons of all nationalities and with

STORY OF ELIZABETH

Physically, she is almost ideal. She mixed, dolls and Shakespeare. Her mind is healthy, vivacious, girlish. She is no prodigy or freak.

"Just a normal little girl raised as a PERSON," says her mother. She enjoys playing games with children of her own age, or discussing literature with her mother's friends.

MARVEL OR MERELY TOMORROW'S CHILD?

The story of Elizabeth, the most remarkable child in the world; a former student of Benton Junior High School, Los Angeles; a prodigy but not a freak, is to be told by her equally remarkable mother exclusively in the Los Angeles Times beginning next Thursday, September 18.

The most thrilling human document of the year.

DO NOT MISS IT!

GIRL GIVEN TO MOTHER BY COURT

Father Ordered to Pay \$40 Per Week as Support Pending Divorce Outcome

Little Ruth Belcher, 8 years of age, who for nearly three years has been the subject of bitter litigation between her mother, Sarah Ruth Belcher, and her father, Robert F. Belcher, will remain in the care of her mother for the time being, Judge Sumner ruled yesterday.

Mrs. Belcher has a suit for separate maintenance pending. At the time she filed it, there was revealed an extraordinary story. Mrs. Belcher asserted that Belcher had taken their daughter, and disappeared, but that she had found him through an ingenious tracing of automobile motor numbers, through repair shops and exchange agencies. When she caught up with him she said, he was in New York and had the girl in a private school, from which she spirited her away, bringing her back to California.

The couple were in Judge Sumner's court yesterday on Belcher's application for an order that the little girl be kept in a private school pending trial. Judge Sumner denied this and ordered Belcher to pay \$40 a week for the support of his wife and child. His former wife was widely known in business in Los Angeles.

FINAL CHECK ON COOLIDGE DAM BEGUN

Plans for Gila Project Go to Washington for Approval in Few Days

A final check of the Coolidge Dam plans, a year and a half in preparation, was under way by engineers yesterday before their submission to Commissioner of Indian Affairs Burke at Washington for his final approval.

The dam is to be constructed on the Gila River in Arizona as part of the general San Carlos irrigation project. The plans, it was stated yesterday, probably will be on their way to Washington in a few days, after they are checked over by the last time and receive the approval of the state of engineers engaged upon them.

These are Fred A. Hottel of Los Angeles, A. J. Wiley of Boise, Idaho; Maj. C. R. Olberg, assistant chief engineer of the United States Indian Irrigation Service; H. C. Meuser, his chief assistant; Maj.-Gen. Langitt, and L. C. Hill.

The dam is to cost \$5,000,000 and will irrigate 62,000 acres of land. It will benefit chiefly the Pima Indians on the San Carlos reservation, where it will place a total of 85,000 acres under irrigation.

Maj. Olberg expressed the hope that bids for the construction of the dam can be called for in sixty days.

BANDIT ROW LANDS BOTH BEHIND BARS

Taxicab Driver Uses Butt of Gun to Stun Surviving Battler and Calls Police

When two bandits he had been forced to aid disagreed in the division of loot and fought each other, P. F. McCann, taxicab driver, hit the surviving battler with the butt of a bandit gun and figured prominently in lodging the pair in jail on a suspicion of robbery charges.

Fred J. Ferris, 34 years of age, 1439 South Norton avenue, and Willard Laughlin, 34, 509 East Twenty-sixth street, are the names appearing on the police records.

McCann told Wilshire-division police that he picked up the two men and drove them to Sunset Boulevard and La Brea avenue, where they committed a robbery, details of which are not available. He says he was then compelled to drive the bandits to Country Club Drive and Queen Anne Boulevard, where the pair proceeded to divide the loot. In the disagreement Laughlin rendered Ferris unconscious with a blow on the chin. McCann picked up a revolver from the foot of the cab and stunned Laughlin, then drove until he encountered Officer Elliott, who piloted the party to Wilshire Station. Ferris was assigned to the City Jail. Laughlin was placed in the Wilshire Jail.

PANAMA CLUB TO PICNIC

Final arrangements for the picnic to be given at Bayside Grove next Sunday by the Panama Canal Club will be perfected at a mass meeting of the organization Thursday evening at the Walker Theater, 720 South Grand avenue. A number of speakers from Panama will address the picnic Sunday. Admission and refreshments at the picnic will be free. Francis Joseph Norton is chairman of the committee on arrangements.

PRAISE ORCHESTRA'S WORK

Philharmonic Founder Joyful Over Plaudits for Rothwell at Philadelphia Concerts

Delighted with the recognition accorded the Los Angeles Philharmonic Orchestra throughout the country, W. A. Clark, Jr., founder and backer of the orchestra, returned to Los Angeles yesterday after an absence of two months. His return heralds the opening of the orchestral season and with the arrival within a week of Alfredo Megerlin, the new concert master, the activities of the Philharmonic Orchestra will be in full swing in preparation for the opening concert October 21.

"Los Angeles should really appreciate what it has in the way of a Philharmonic Orchestra," Mr. Clark said. "The recognition given it both by the recognition bestowed on Conductor Rothwell and interest manifested in the orchestra organization, shows that the eyes of the music world are turned toward Los Angeles and that this city is now regarded as a great music center. When Walter Henry Rothwell was given conductor at the Philadelphia Sequel-tennial concert, Los Angeles and her Philharmonic Orchestra shared that success and that fame with him. Throughout the East, wherever Mr. Rothwell went, musicians and laymen knew about the Los Angeles Philharmonic Orchestra, and expressed great interest in its work and in the musicians who composed the organization.

"This year we have several new musicians and Mr. Rothwell has brought back a delightful repertoire, so that we may look forward to a season even better than those of the past. There has been a decidedly enthusiastic response, as shown in the season ticket demand, to the new policy of playing Thursday night concerts, and everything seems to be ready for the finest season of music we have yet had."

The officers of the women's committee have already been announced as follows: Mrs. Cecil Frankel, general chairman; Mrs. Force Parker, vice-general chairman; Mrs. J. J. A. Van Kaathren, secretary-treasurer. The following are chairmen of sub-committees:

Mrs. Harold Bessing, industrial committee; Mrs. Susan Brown, social committee; Mrs. Ralph Buchanan, music club; Miss Gladys Caldwell, drama club.

an Astonishing
Blindfold
Test

SEE if this doesn't give you
the greatest surprise of your
whole cooking experience!

Put a little Crisco on the
tip of one spoon. On the
tip of another place a little
of the fat you are now
using; have someone blind-
fold you, and give you first
one, then the other fat to
taste.

Now, did you ever imagine
there could be such a striking dif-
ference in the taste of raw cooking
fats? Think what a difference
Crisco's sweetness and freshness
will make in your own cakes,
pies, biscuits and fried foods.
